OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 6TH FEBRUARY, 1936

12 o'clock, midday.

To-day being the first day of the meeting of the First Session of the Eighteenth Parliament for the Despatch of Business, Arthur Beaudesne, Esquire, C.M.G., M.A., K.C., F.R.S.C., Clerk of the House of Commons, and Thomas Munro Fraser, Esquire, LL.B., Assistant Clerk, Commissioners appointed by *Dedimus Potestatum* for the purpose of administering the Oath to Members of the House of Commons, all attending according to their duty, the said Arthur Beaudesne, Esquire, C.M.G., M.A., K.C., F.R.S.C., laid upon the Table a List of the Members returned to serve in this Parliament received by him as Clerk of the House of Commons from and certified under the hand of Jules Castonguay, Esquire, the Chief Electoral Officer, which said Certificate and List is as follows:—

EIGHTEENTH GENERAL ELECTION

OFFICE OF THE CHIEF ELECTORAL OFFICER

This is to certify that since the dissolution of the Seventeenth Parliament on the fifteenth day of August, 1935, writs of election, dated on the said fifteenth day of August, were issued by His Excellency the Governor General for the election of a member or members for every electoral district in Canada, such writs being severally addressed to the returning officers mentioned in the attached list and directing the nomination of candidates to be held either on the thirtieth day of September or the seventh day of October, and the poll, if required, on the fourteenth day of October of the said year.

And that thereafter by reason of the acceptance of office of profit under the Crown of three of the members elected under such first mentioned writs, further writs of election were issued for the election of members for the electoral districts

of Queens, in the Province of Prince Edward Island, Assiniboia, in the Province of Saskatchewan, and Portneuf, in the Province of Quebec, as in the said list more fully appears.

And that the persons named in the attached list have from time to time been returned as elected pursuant to the said writs, their names having been duly entered in the order in which the returns were received in the book kept for that purpose pursuant to the statute in that behalf, and notice of such returns having from time to time been duly published in the *Canada Gazette*.

And that the names of the members first elected who, after their election, accepted offices of profit under the Crown, are distinguished in the said list by an asterisk thus (*).

And that after the name of each returning officer to whom a writ was directed on any date other than the fifteenth of August, 1935, there appears the date of the by-election.

Given under my hand at Ottawa this third day of February, 1936.

JULES CASTONGUAY,
Chief Electoral Officer.

SECOND SITTING

THURSDAY, 6th February, 1936,
3 o'clock, p.m.

PRAYERS.

Mr. Speaker communicated to the House the following letter which had been received by the Clerk of the House of Commons:—

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA

OTTAWA, 17th January, 1936.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open formally the Session of the Dominion Parliament, on Thursday the 6th February, at 3.00 p.m.

I have the honour to be,

Sir,

Your obedient servant,

A. S. REDFERN,

Secretary to the Governor General.

Arthur Beauchesne, Esq., C.M.G., LL.D.,
Clerk of the House of Commons,
Ottawa.

A Message was delivered by Major A. R. Thompson, Gentleman Usher of the Black Rod:—

MR. SPEAKER,

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Chamber of the Honourable the Senate.

Accordingly, Mr. Speaker, with the House, went up to the Senate Chamber, and then Mr. Speaker spoke to the following effect:—

MAY IT PLEASE YOUR EXCELLENCY:

The House of Commons has elected me their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favourable consideration.

The Honourable the Speaker of the Senate then said:—

MR. SPEAKER,

I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to His Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow their constitutional privileges.

I am commanded also to assure you, that the Commons shall have ready access to His Excellency upon all seasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

And the House being returned,—

Mr. Speaker reported that the House had been in the Senate Chamber, and that he had, in their names and on their behalf, made the usual claim of privileges, which His Excellency had been pleased to confirm to them.

Mr. Mackenzie King introduced a Bill, No. 1, An Act respecting the administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy which he read to the House as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I meet you under the shadow of the loss which Canada, in common with all parts of the Empire, has sustained in the death of our late beloved Sovereign, King George V. The sorrow so universally expressed is but one of the many evidences of the great regard in which his late Majesty was held by all men

and nations. In no part of the King's dominions has the sense of national and personal loss been more deeply felt than in Canada. King George's patience and wisdom, his example of courage and devotion to duty, throughout a reign of unparalleled anxieties, will be held in all our memories as a great heritage.

I join with you in extending profound sympathy in their bereavement to King Edward VIII, Her Majesty Queen Mary, and all the members of the Royal Family. Toward the new King, there already exists, on the part of the people of Canada, a feeling of personal attachment and affection, occasioned by His Majesty's visits to this country, and the many friendships and wide acquaintances formed during the years he was known to us all as the Prince of Wales. To these sentiments will now be added in increasing measure those of loyalty and devotion.

I am profoundly sensible of the great honour of having been chosen as the King's representative in Canada. I am pleased that my meeting with the Members of both Houses should be at the beginning of the first session of the Eighteenth Parliament. It is with the greatest pleasure that I look forward to the associations of the next few years.

The seriousness of the international situation has contributed to the world's anxieties. My ministers are confident that they express the conviction of the people of Canada in adhering to the aims and ideals of the League of Nations, and in seeking, in unison with members of the League as well as with other nations, to support by all appropriate and practical means the maintenance of peace, and the establishment of a world order based on justice and equity.

Unemployment continues to be Canada's most urgent national problem. While there is an increase in the number of persons employed, the number of those on relief shows no abatement.

As a means of dealing with present emergency conditions, you will be asked, with the approval of the governments of all the provinces of Canada, to make provision for the establishment of a representative national commission, which will co-operate with the provinces and municipalities in an endeavour to provide work for the unemployed, and in the supervision of unemployment relief. The commission, which will be assisted by a representative advisory committee, will aim at effecting nation-wide co-operative effort toward increasing opportunities of gainful employment.

Transfer of the camps established for the care of single homeless men from the Department of National Defence to the Department of Labour, is in process of being effected. Every effort will be made to close the camps altogether at as early a date as expanding employment opportunities permit.

A royal commission has been appointed to inquire into conditions in the textile industry, as the result of the closing down on January 18th of one of the textile plants in the city of Sherbrooke, thereby occasioning, in midwinter, and at a time of unemployment, great hardship to hundreds of employees and their families. My ministers are of the opinion that industries should recognize an obligation to co-operate in every manner possible in continuing and providing employment, and that Labour and consumers have a right to have their voice heard, and influence felt, in the control of industrial policy. Where these ends cannot be effected through voluntary co-operation of all parties to industry, my ministers are of the opinion that there are the strongest of reasons for State intervention.

With a view to safeguarding the interests of consumers a full inquiry will be instituted into representations which continue to be made respecting monopolistic control of the importation and distribution of anthracite coal.

In order to determine the question of their validity, reference has been made to the Supreme Court of Canada of a number of measures enacted at the last session of parliament.

I am happy to be able to inform you that a trade agreement between Canada and the United States of America was concluded on Armistice Day, 1935, and that the trade dispute with Japan, which had seriously affected the trade of both countries, was adjusted before the end of the old year.

The Canada-United States Trade Agreement will be submitted for your approval. You will also be forthwith advised of the basis on which normal trade relations between Canada and Japan have been restored.

My ministers believe that the Canada-United States agreement will mark a great improvement in Canada's international economic relations; also, that the principles embodied in this agreement, extended and applied with vigour and determination, will contribute to the reversal of the trend toward extreme economic nationalism, which has been undermining standards of living, and embittering relations between countries all over the world.

You will be pleased to know that the policy of the Canadian Wheat Board in selling wheat at competitive prices is bringing satisfactory results.

A conference between the Dominion Government and the governments of the provinces of Canada was held at Ottawa during the month of December. Continuing committees have since carried on consideration of the more important subjects discussed.

Among matters arising out of the Conference, which will be submitted for your consideration, will be a proposal for amending the British North America Act, 1867, in order to provide for certain financial arrangements between the Dominion and the Provinces. A committee of Dominion and Provincial representatives, appointed by the Dominion-Provincial Conference, is engaged in the consideration of a method and procedure for effecting constitutional amendments.

It is proposed to restore to Parliament its control over taxation and expenditure by ending all measures which have deprived members of the House of Commons of this control, and which have served to invest the Executive with unwarranted arbitrary powers.

Every effort will be made to substitute stability for uncertainty in the administration of customs laws.

The control of credit, and the issue of currency, being public matters of direct concern to every citizen, it is intended, at the present session, to ask Parliament to make such changes in the ownership and control of the Bank of Canada, as may be necessary to give to the government a predominant interest in the ownership as well as effective control of the Bank.

You will be asked to consider amendments to existing legislation respecting the Canadian National Railways, which will serve to afford a greater measure of governmental authority and responsibility to Parliament.

It is proposed to make the present position of radio broadcasting in Canada the subject of inquiry by a special committee of the House of Commons.

Steps have already been taken with respect to the reorganization and consolidation of government services, which it is believed will further their efficiency and effect much needed economies. These will be supplemented by legislative measures to which your attention will be invited.

A reduction from twenty-one to sixteen has been made in the number of Ministers of the Crown.

A Bill to provide for the creation of parliamentary secretaryships will be submitted for your consideration.

Members of the House of Commons:

The Public Accounts of the last fiscal year and the Estimates for the coming year will be submitted for your consideration.

Honourable Members of the Senate:

Members of the House of Commons:

In inviting your careful consideration to the important matters which will engage your attention, I pray that Divine Providence may guide and bless your deliberations.

On motion of Mr. Mackenzie King, it was ordered,—That the Speech of His Excellency the Governor General to both Houses of Parliament be taken into consideration on Monday next, and that this order have precedence over all other business except the introduction of Bills, until disposed of.

On motion of Mr. Mackenzie King, a Special Committee consisting of Messrs. Casselman, Elliott (Middlesex West), Mackenzie (Vancouver Centre), Power and Woodsworth, was appointed to prepare and report, with all convenient speed, lists of members to compose the Standing Committees of this House under Standing Order 63.

Mr. Mackenzie King, delivered a message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—

TWEEDSMUIR.

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Honourable T. A. Crerar, Minister of the Interior, the Honourable C. A. Dunning, Minister of Finance, the Honourable W. D. Euler, Minister of Trade and Commerce, and the Honourable Ernest Lapointe, Minister of Justice, to act with the Speaker of the House of Commons as Commissioners for the purposes and under the provisions of Chapter 145 of the Revised Statutes of Canada, 1927, intituled: "An Act respecting the House of Commons."

Government House, Ottawa,

6th February, 1936.

Mr. Speaker laid before the House the Report of the Joint Librarians of Parliament, which is as follows:—

To the Honourable the Speaker of the House of Commons:

The Joint Librarians of Parliament have the honour to submit their report on the Library for 1935.

Work on the Supplementary Catalogue of books donated and purchased during the past year has been rapidly proceeded with, and it is expected that it will be printed within the next two weeks.

Among the interesting donations received was a complete set (30 volumes) of the works of Emmanuel Swedenborg, given by the Swedenborg Foundation. The French Minister of Foreign Affairs was good enough to present to the Library the French diplomatic documents (1871-1914) relating to the origins of the war of 1914. The Ministers of the various Legations in Ottawa have kindly presented various books and documents to the Library.

The Librarians have endeavoured to secure the most important of the large number of new books issued during the past year on Economics and Finance. The seventeenth volume of the comprehensive Dictionary of American Biography has been received.

For the French section of the Library some of the works purchased have been, *Politique Extérieure de l'Allemagne (1870-1914)* 18 volumes; *Académie de Droit International: Recueil des Cours*, 23 volumes; also *Dictionnaire encyclopédique Quillet*. The last volume of the *Dictionnaire de l'Académie française* has been received, and also the *Encyclopédie française*, which was issued with the approval of governmental authorities.

The beautiful parquetry floor of the Library in oak, cherry, and walnut, was laid down in 1875. It was somewhat damaged during the fire which, in 1916, destroyed the Parliament Buildings. The matter of its renovation was discussed last Session by the Joint Committee on the Library and the whole question is under consideration by the chief architect's branch of the Department of Public Works.

The appropriation for purchase of books and binding, which was cut down some years ago, has, during the past year been partially restored to the former amount, thus enabling a somewhat larger purchase of books to be made.

Respectfully submitted,

MARTIN BURRELL,

FELIX DESROCHERS,

Joint Librarians.

Library of Parliament,

Ottawa, February 6, 1936.

On motion of Mr. Mackenzie King, it was ordered,—That to-morrow the House take into consideration an Address of sympathy and loyalty to His Majesty King Edward VIII and a Message of Condolence to Her Majesty Queen Mary, and that Standing Order 45 be suspended in relation thereto.

The House then adjourned at 4.20 o'clock, p.m., until to-morrow, at 3 o'clock, p.m.

PIERRE F. CASGRAIN,

Speaker.

By Mr. Kinley:—Address to His Excellency the Governor General, for a copy of all Orders in Council passed since the 1st January, 1929, dealing with or referring to otter or steam trawlers.

Mr. MacInnes, seconded by Mr. Woodsworth, moved:—

Whereas it is detrimental to the best interests of Canada that there should be in the country groups to whom, because of race or religious beliefs, we do not extend all the right of citizenship;

Therefore be it Resolved,—That, in the opinion of this House, the Government should take the necessary measures to exclude from the country all persons belonging to those groups to whom we do not grant the full rights and privileges of citizenship.

And a Debate arising thereon, and continuing;

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

PIERRE F. CASGRAIN,
Speaker.

Duffus,	Macphail (Miss),	

On motion of Mr. Elliott (Middlesex West), the said Report was concurred in.

On motion of Mr. Elliott (Middlesex West), it was resolved,—That the Standing Committees of this House shall severally be empowered to examine and inquire into all such matters and things as may be referred to them by the House, and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Mackenzie King, a Member of the King's Privy Council, laid before the House,—Tabular Statement of Tariff Changes resulting from the Canada-United States Trade Agreements, signed at Washington on the 15th November, 1935.

Mr. Dunning, a Member of the King's Privy Council, laid before the House,—Copies of Orders in Council passed under the provisions of the Relief Act, 1935, as follows:—

Order in Council, P.C. 418, dated February 20, 1936: authorizing loan of \$1,435,000 to the province of Saskatchewan to cover the provincial share of direct relief expenditures in excess of the monthly grant-in-aid, from September 1st to December 31st, 1935, accepting as security therefor Treasury Bills bearing interest at the rate of 4 per cent per annum.

Order in Council, P.C. 419, dated February 20, 1936: authorizing loan of \$180,000 to the province of Manitoba for the purpose of enabling the said province to pay its share of direct relief expenditures for January accounts payable in February, 1936, accepting as security therefor Treasury Bill of the said province bearing interest at the rate of 4 per cent per annum.

Introduction of Bills being called;

"Mr. Pouliot—Bill intituled: 'An Act to repeal 24-25 George V (1934), Chapter 25, 'An Act respecting the Bureau for Translations';"

Mr. SPEAKER: With reference to this bill, I suspended my decision yesterday, and I have considered this matter most carefully and am prepared to render decision in the matter.

"There are only two clauses to this Bill:—

"1. Chapter 25 of 24-25 George V is hereby repealed.

"2. Hereinafter each translator shall be under the head of the department concerned.

"Under Standing Order 76, every clause of a Bill must be considered by the Committee of the House in its proper order. If clause 1 of the proposed Bill were passed, the result would automatically be the abolition of the positions of nearly all the translators in the civil service as they have been practically all absorbed by the Bureau for Translations.

"When the House would reach clause 2 of the Bill, there would be no Bureau for Translations. New appointments would have to be made if each department were to do its own translating. Clause 2 therefore provides for the appointment of additional civil servants.

"Such a Bill cannot be introduced by a private member. Its introduction must be moved by a Minister of the Crown on the recommendation of the Governor General and it must be preceded by a resolution in Committee of the Whole.

"I may quote as a precedent a ruling of Mr. Speaker Rhodes who, on May 17th, 1918, decided that a motion to amend a Bill so as to provide for the appointment of additional government officials is out of order as it involves an increased grant of public money.

"On March 17th, 1933, Mr. Jean moved for leave to introduce a Bill to amend the Bankruptcy Act so as to provide for a Joint Superintendent of Bankruptcy. Mr. Speaker Black ruled it out of order on the ground that the bill provided for the appointment of an official and would therefore entail a charge upon the revenue. Such legislation, he stated, could be introduced only by a Minister on the approval of the Crown.

"Another element which places this measure in the category of money bills is that its adoption would mean the transfer of the authority under which appropriated money is to be spent. The translators' salaries have been voted as part of the Estimates of the Secretary of State's Department. This was done by resolution in Committee of Supply and it was subsequently embodied in the Appropriation Bill. When money is voted, the main conditions imposed on its expenditure are embodied in resolutions. All the circumstances concerning its destination form part of the appropriation with which they are considered and if any alteration is to be made it must be by the same process as the original resolution.

"A money bill is defined in the British house as a public bill which contains only provisions dealing with *inter alia* the 'custody' of public money. The custody is undoubtedly the placing of an appropriation under a certain minister. The translators' salaries which cannot be separated from the proposed Bill have been placed in the custody of the Secretary of State and the Bill provides that it be given to several other Ministers.

"Sir Wilfrid Laurier speaking on an alleged money bill in the session of 1911-12 (Hansard, column 3633-3641) said:

"The time when we should dispose of the manner in which the money is to be expended is when the money is appropriated and therefore it should be first of all introduced by resolution where any objections which may properly be urged against the resolution should be urged."

"This opinion of Laurier goes to show that the circumstances under which an expenditure is to be made are indivisible from that expenditure. The choice of the minister responsible for paying out the money is a material condition of an appropriation, and in order to change it the House would have to amend the principal clauses of a money bill.

"I am therefore of the opinion that the proposed measure has all the earmarks of a money bill and cannot be introduced by a private member. I declare it out of order."

Mr. Lapointe (Quebec East), moved,—That a special committee, the members thereof to be selected at a later date, be appointed to study the Dominion Elections Act 1934 and amendments thereto and the Franchise Act 1934 and amendments thereto and to suggest to the House such amendments to the said Acts as they may deem advisable, and, furthermore, such committee shall study and make a report on the following subjects:—

- (a) The Proportional Representation System;
- (b) The Alternative Vote in single-member constituencies;
- (c) Compulsory Registration of Voters;
- (d) Compulsory Voting;

and that the said special committee have power to send for persons, papers and records, to examine witnesses under oath and report from time to time.

After Debate thereon, the question being put on the said motion; it was agreed to.

The House resolved itself again into Committee of Supply.

(In the Committee)

The following Resolutions were adopted:—

VII—AGRICULTURE

43 Experimental Farms, including investigations concerning plant diseases.	\$2,015,900 00
42 Live Stock, including assistance to Fairs and Exhibitions. .	1,490,700 00

And the House continuing in Committee;

At six o'clock, p.m., Mr. Speaker took the Chair, and left it, to resume the same at eight o'clock, p.m.

8 P.M.

(The Order for Private and Public Bills was called under Standing Order 15)

(Public Bills)

The House resumed the adjourned Debate on the proposed motion of Mr. Reid, for the second reading of Bill No. 2, An Act to amend the Railway Act (Rates on grain).

And the Debate continuing, the said Debate was, on motion of Mr. Howe, adjourned.

Notices of Motions being called;

“No. 8

“Mr. Perley (Qu'Appelle):—The following proposed Resolution:—That, in the opinion of this House, the domestic freight rate on grain and grain products moving from any point in the provinces of Manitoba, Saskatchewan, Alberta, and British Columbia, to a point in any of the said provinces, or from any point, to another point, in any of the said provinces, be adjusted or reduced to at least not more than three cents per hundred pounds over the existing export rates.”

MR. SPEAKER: “The adjournment of the debate, last Thursday on the second reading of Bill No. 2, An Act to amend the Railway Act (Rates on grain), meant that the question shall again be considered at a future sitting when the order for Public Bills will be reached. This is what is called, in parliamentary procedure, appointing a matter for consideration by the House. May, page 272, gives many precedents showing that the discussion of an appointed matter cannot be anticipated by a motion. The Bill proposes to extend to the westward traffic, from Fort William to Vancouver and the Pacific coast, the rates on grain and flour agreed to in the Crow's Nest Pass Agreement embodied in its essence as follows in the annual statutes of 1897:—

“That there shall be a reduction in the company's present rates and tolls on grain and flour from all points on its main line, branches or connections, west of Fort William to Fort William and Port Arthur and all points east, of three cents per one hundred pounds.”

“The Order adjourning the debate had been passed by the House when Mr. Perley, the honourable member for Qu'Appelle, moved that domestic freight rates on grain products, from and to any point in the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, be reduced to at least not more than three cents per hundred pounds over the existing export rates.

“There is sufficient similarity in the Bill and the Motion to confine them to one debate. The domestic rates dealt with in the Motion are included in the rates and tolls on grain and flour mentioned in the Crow's Nest Agreement. The question centralizes on grain rates in western Canada, and debate thereon

could not be allowed last Thursday a few minutes after the House had adjourned it to a future sitting. The difference in details between the two propositions may be dealt with by moving amendments when the Bill is in Committee of the Whole, but it is not sufficient to justify a duplication of the debate. It is a well known principle that the same question cannot be raised twice in the same session.

"The main object sought both by the Bill and the Motion is the reduction of rates on grain and its products moving westwardly in the prairie provinces and British Columbia. They are both intended to put an end to an alleged unfairness in the present rates, and the whole debate, which will be centred on that grievance, must take place on the Bill and not on the Motion.

"As *Campion* says, in applying the anticipation rule, preference is given to the discussion which leads to the most effective results, and this has established a descending scale. A Bill has the right-of-way and cannot be sidetracked by a Motion.

"I cannot follow any other course than to decide that the discussion of Mr. *Perley's* Motion is blocked by the adjournment of the debate on Bill No. 2, and for that reason, I have to declare that Motion cannot now be debated and must be struck off the Order Paper.

"This decision does not prevent the subject matter of Mr. *Perley's* Motion from being discussed when the Bill is under discussion."

From this decision Mr. *Bennett* appealed to the House.

And the question being put by Mr. Speaker: Shall the ruling of the Chair be sustained; it was decided in the affirmative, on division.

Mr. *Woodsworth*, seconded by Mr. *Heaps*, moved,—

Whereas, the concentration of economic power in the hands of a comparatively small and irresponsible group has failed to provide security and a decent standard of living for large numbers of our people;

And whereas, the said city is a divisional point of the National Railways and the terminus of the Temiscouata Railway, which links the said city to the province of New Brunswick, and to that part of the National Railways known in the past as the Transcontinental;

And whereas, the National Railways are still in possession of the branch line of Riviere-du-Loup station to the Riviere-du-Loup wharf;

And whereas, other countries give greater consideration to the employment of their own nationals on ships and vessels belonging to their own country;

And whereas, the Canadian Government grant large sums of money to the owners of ships and vessels by way of subsidies;

And whereas, it is desirable that every encouragement be given for the employment of officers, seamen, cooks and engineers of white Canadian citizenship in preference to those of oriental origin on all Canadian owned and registered ships and vessels;

Therefore be it Resolved,—That, in the opinion of this House, the Government take such steps as will provide for employment of greater numbers of white Canadian citizens on all ships and vessels of Canadian ownership and registry, the owners of which receive sums of money from the public treasury of Canada.

And a Debate arising thereon;

Mr. MacInnis, seconded by Mr. Heaps, moved in amendment thereto:—

That the motion be amended by striking out the word “white” in the third last line of the motion and by adding the following words to the motion: “And be it further resolved that all subsidies or monetary assistance by the Government of Canada be withheld until such time as the Government is satisfied that trade union rates of wages and working conditions prevail for all ranks on such ships.”

And the Debate continuing;

At six o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 6, until to-morrow, at three o'clock, p.m.

Mr. Pouliot moved,—That the said Bill be now read the second time.

The said Bill was accordingly read the second time, considered in Committee of the Whole, reported without amendment, read the third time and passed.

The House resumed the Debate on the proposed motion of Mr. Woodsworth:—Whereas, the concentration of economic power in the hands of a comparatively small and irresponsible group has failed to provide security and a decent standard of living for large numbers of our people;

Therefore be it Resolved,—That, in the opinion of this House, industrial, commercial and financial organizations and undertakings that are failing to function in the general interest should be taken over by the appropriate public authorities and operated as public services or co-operative enterprises.

After further Debate thereon, the question being put on the said motion; it was negatived, on division.

The following Order of the House was issued to the proper officer:—

By Mr. Chevrier (Ottawa East):—Order of the House for a copy of all correspondence, reports and other documents, relative to the recent appointment by the Civil Service Commission of the Clerk of Sessional Papers of the House of Commons.

Mr. Deslauriers, seconded by Mr. Gauthier, moved,—Whereas small property holders in the cities are in a most critical financial situation;

And whereas during the past five years the depression has borne more heavily on this class of citizens than on any other by reason of the unemployed who are dependent on public bodies;

And whereas they contribute substantial sums to the public treasury in the form of taxation;

And whereas the agricultural class is now benefiting by government measures;

Therefore be it Resolved,—That, in the opinion of this House, the problem of these small property holders should be the subject of study in order to determine whether it is not opportune and equitable that they should receive the full consideration to which they are entitled.

After Debate thereon, the question being put on the said motion; it was agreed to.

Mr. MacNeil, seconded by Mr. Taylor (Nanaimo), moved,—That, in the opinion of this House, the Federal Government should assume full responsibility for dealing with unemployment as a national problem;

That those employed in such works and services should receive a living wage at least equal to trade union rates of pay;

That pending such provision the unemployed should receive more adequate maintenance, which we suggest might be provided by a steeply graded super-tax on incomes over \$10,000.

And a Debate arising thereon, the said Debate was, on motion of Mr. Poole, adjourned.

Mr. Power, a Member of the King's Privy Council, presented,—Return to the foregoing Order forthwith.

Mr. Douglas, seconded by Mr. Marshall, moved,—That it be resolved:—That this House urge upon the Government the necessity for sincere and complete fulfillment of all obligations assumed under the Covenant of the League of Nations and especially the prohibition of direct or indirect export to an aggressor nation of all raw materials and manufactured articles necessary for war purposes;

And be it further Resolved,—That this House, realizing the danger and futility of sanctions unless collectively imposed and unless accompanied by a determined effort to remove the causes of war, urge that, as now provided for in the Covenant of the League and the resolutions of the Assembly, the Canadian Government initiate proposals to achieve the more complete fulfillment of the following purposes of the Covenant:

- (a) Collective reduction of armaments;
- (b) Open and collective diplomacy with reference to international disputes;
- (c) Abrogation of treaties and agreements not in accord with the Covenant;
- (d) Definite steps under Article 19 of the League Covenant to revise the Peace treaties and to apply the principles of international justice to the solution of those economic, territorial and racial problems most frequently the cause of international disputes;
- (e) Prohibition of unilateral agreements and unilateral mobilization likely to undermine the efforts of the League to establish conditions of peace;

And be it further Resolved,—That, unless and until, there is a sincere acceptance and application of the above by the Member-Nations of the League, Canada will refuse to participate in any foreign war no matter who the belligerents may be.

And a Debate arising thereon; the said Debate was, on motion of Mr. Mackenzie King, adjourned.

Mr. Johnston (Lake Centre), seconded by Mr. Bothwell, moved,—That, in the opinion of this House, an immediate inquiry should be made under the provisions of the Research Council Act, Chapter 177, R.S.C., 1927, or by other means, into the causes underlying the high price of farm implements, with particular reference to the advance in prices for the year, 1936.

And a Debate arising thereon;

Mr. Gardiner moved in amendment thereto: That the Resolution be amended by striking out the words: "under the provisions of the Research Council Act, Chapter 177, R.S.C., 1927, or by other means" where they appear, and substituting therefor the following words: "by the Standing Committee on Agriculture and Colonization."

And the question being put on the said proposed amendment; it was agreed to.

And the question being put on the main motion as amended; it was agreed to.

Mr. Thompson, seconded by Mr. MacNicol, moved,—That, in the opinion of this House, all rural telephone companies should be exempt from federal income tax.

Mr. Speaker ruled the said proposed motion out of Order for the reason that it is not framed in such abstract or general terms that it can be entertained by the House. The proposal made therein is for a special reduction in the public revenue. The item to be struck out is mentioned, namely, the income tax levied on rural telephone companies. Such a proposal can only be entertained in the Committee of Ways and Means, and, as May says, page 544, “these proposals must be grafted upon the financial scheme submitted by the Government and it must not affect the balance of ways and means voted for the service of the year”. True, the motion says that the exemption of the tax “should” and not “shall” be made, but even at that I think the proposal ought to be considered in the committee and not by the House, for it is essentially a ways and means resolution.

Mr. Quelch, seconded by Mr. Fair, moved,—That, in the opinion of this House, the Government should submit for consideration of this House such legislation as may be necessary in order to guarantee a minimum price, based upon cost of production, plus a fair remuneration to the producer, on wheat, oats and barley, as a permanent measure.

And a Debate arising thereon, and continuing;

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

PIERRE F. CASGRAIN,

Speaker.

The House resumed the adjourned Debate on the proposed motion of Mr. Mackenzie King:—That it is expedient that Parliament do approve of the Trade Agreement entered into at Washington on the 15th day of November, 1935, between His Majesty's Government in the Dominion of Canada and the Government of the United States of America, and that this House do approve of the same, subject to the legislation required in order to give effect to the provisions thereof.

A Message was received from the Senate informing this House that the Senate had passed the Bill No. 3, An Act to amend The Dominion Franchise Act, with amendments, which are as follows:—

Of Joseph Moynour and others, of Ottawa, Ontario, praying for the passing of an Act to incorporate them under the name of the Domestic Finance Corporation.—*Mr. Chevrier (Ottawa East)*.

Mr. Bothwell, from the Special Committee on Elections and Franchise Acts, presented the Second Report of the said Committee, which is as follows:—

It is recommended that the quorum of your committee be twelve members.

On motion of Mr. Bothwell, the said Report was concurred in.

Mr. Ilsley, by leave of the House, introduced a Bill, No. 11, An Act to amend the Customs Act, which was read the first time, and ordered for a second reading at the next sitting of the House.

Mr. Rogers moved,—That the House do go into Committee of the Whole, at the next sitting of the House to consider the following Resolution.

That it is expedient to bring in a measure to provide for the establishment of a commission, to be known as the National Employment Commission, to supervise or administer the expenditure of funds voted by Parliament for unemployment relief and for providing employment, and for other purposes related thereto; and to provide for fees or compensation and for the travelling and living

expenses of the commissioners, for the salaries of the secretary and other employees of the commission, and also for the travelling and living expenses of the members of a National Advisory Committee.

Whereupon Mr. Rogers, a Member of the King's Privy Council, informed the House, That His Excellency the Governor General, having been informed of the subject-matter of the proposed Resolution, recommends it to the House.

On motion of Mr. Crerar, it was resolved,—That the Orders in Council made between the 1st day of January, 1935, and the 31st day of December, 1935, under the provisions of the Dominion Lands Act, chapter 113, R.S.C. 1927, and which were laid on the Table on the 10th February, 1936, be approved.

The amendments made by the Senate to the Bill No. 3, An Act to amend The Dominion Franchise Act, were taken into consideration and agreed to.

The House resumed the adjourned Debate on the proposed motion of Mr. Mackenzie King:—That it is expedient that Parliament do approve of the Trade Agreement entered into at Washington on the 15th day of November, 1935, between His Majesty's Government in the Dominion of Canada and the Government of the United States of America, and that this House do approve of the same, subject to the legislation required in order to give effect to the provisions thereof.

At six o'clock, p.m., Mr. Speaker left the Chair, to resume the same at eight o'clock, p.m.

(The Order for Private and Public Bills was called under Standing Order 15)

(Public Bills)

The Order being read for Second Reading of Bill No. 8, An Act to amend the Post Office Act.—*Mr. Boulanger.*

MR. SPEAKER: "This bill provides that the Postmaster General may award contracts for the transportation of mail, that no contract for an amount exceeding \$1,000.00 per year may be awarded without the approval of the Governor in Council, that the contractors shall be paid according to a fixed rate between 35 cents and 70 cents per mile per day unless otherwise authorized by the Governor in Council.

"Moreover, the sponsor states in the explanatory notes that it is sought by this Bill to allow the Postmaster General to properly remunerate the mail carriers who perform the important function of transporting the mail of Canada.

"In the Session of 1929, Mr. Guthrie moved as an amendment to the motion for the Committee of Supply that rural mail carriers should be appointed by the Civil Service Commission upon a permanent basis with a definite rate of pay based upon mileage and the physical conditions of the territory involved, having regard to the amount paid to other civil servants for similar employment. This was in order because it was not a bill; it was a proposed resolution drafted in general terms which had no immediate effect and would have had to be followed by a Bill amending the Post Office Act; but a Bill like this one, authorizing the Postmaster General to enter into contracts for carrying the mail involves the appropriation of public revenue and must be recommended by the Governor

General and originate in a Committee of the Whole specially set up for that purpose. A resolution must first be submitted which, under Standing Order 60, cannot be considered on the day it is introduced but must then be adjourned to a future sitting. A Bill founded on that resolution is then introduced. Such measures are always sponsored in our House by Ministers of the Crown.

"This Bill does not follow these requirements, which are obligatory under the British North America Act, the Standing Orders and our practice, and I am bound therefore to rule it out of order."

The Order being read for Second Reading of Bill No. 9, An Act to amend the Civil Service Act (Vacancies, Outside Service, Priority to Returned Soldiers);

Mr. Boulanger, seconded by Mr. Sylvestre, moved,—That the said Bill be now read the second time.

And a Debate arising thereon, and continuing;

The hour devoted to Private and Public Bills having expired;

The House resumed the Debate on the proposed motion of Mr. Mackenzie King:—That it is expedient that Parliament do approve of the Trade Agreement entered into at Washington on the 15th day of November, 1935, between His Majesty's Government in the Dominion of Canada and the Government of the United States of America, and that this House do approve of the same, subject to the legislation required in order to give effect to the provisions thereof.

And the Debate continuing; the said Debate was, on motion of Mr. Perley (Qu'Appelle), adjourned.

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until Monday next, at three o'clock, p.m.

Of Helen Elizabeth Ham Lilley, of Sherbrooke, Quebec, at present residing in North Hatley, Quebec, praying for the passing of an Act to declare her marriage with William Bassett Lilley, of Sherbrooke, Quebec, to be dissolved, and that she be divorced from him.—*Mr. Davidson.*

Mr. Howe, by leave of the House, introduced a Bill, No. 12, An Act respecting the Toronto Harbour Commissioners, which was read the first time, and ordered for a second reading at the next sitting of the House.

The following Orders of the House were issued to the proper officers:—

By Mr. Hall:—Order of the House for a copy of all correspondence, reports and other documents appertaining to the lease entered into with the Three Rivers Grain and Elevator Company, regarding the erection of an elevator at Three Rivers, on Government property.

By Mr. Sinclair:—Order of the House for a copy of all letters, correspondence, telegrams and other documents exchanged between the Government of Canada and any department thereof, or any other person, with regard to harbour improvements in Charlottetown, Prince Edward Island, since 1930

By Mr. Boulanger:—Order of the House for a copy of all correspondence between the Postmaster General or the general superintendent of postal service at Quebec, and the postmaster of La Durantaye, respecting the discontinuance of La Durantaye post office deposits with the Provincial Bank of Canada at La Durantaye.

By Mr. Boulanger:—Order of the House for a copy of all correspondence between the Postmaster General at Ottawa and the postmaster of La Durantaye, from August 1, 1931, to date, respecting (a) the post office, and (b) La Durantaye rural mail No. 1.

By Mr. Boulanger:—Order of the House for a copy of all correspondence between the Quebec district superintendent and the postmaster of La Durantaye, from August 1, 1931, to date, respecting, (a) the post office, (b) La Durantaye rural mail.

By Mr. Brooks:—Order of the House for a copy of all letters, correspondence and other documents exchanged between the Honourable the Minister of Fisheries, any official of the Department of Fisheries, and any other person, with respect to the appointment of James J. Larabee, of Eldon, Queens County, Prince Edward Island, to a position under the Department of Fisheries.

Mr. Donnelly, seconded by Mr. Neill, moved,—That, in the opinion of this House, the Government should consider the advisability of extending the provisions of the Old Age Pensions Act to blind people over 40 years of age.

After Debate thereon, the question being put on the said proposed motion, it was agreed to.

Mr. Lacombe, seconded by Mr. Bouchard, moved,—That, in the opinion of this House, Canada should study the question of immediately adopting a seasonable tariff in the interest of market gardening, particularly during the months of April, May and June of each year.

After Debate thereon, the question being put on the said proposed motion, it was agreed to.

Mr. Perley (Qu'Appelle), seconded by Mr. Beaubier, moved,—That, in the opinion of this House, the provisions of the Canadian Wheat Board Act, 1935, should forthwith be made applicable to oats, barley, rye and flax produced in the provinces of Manitoba, Saskatchewan, Alberta, and British Columbia.

And a Debate arising thereon; the said Debate was, on motion of Mr. Weir, adjourned.

Mr. Massey, seconded by Mr. Betts, moved,—Whereas, a trained youth is indispensable to the future welfare of Canada;

And whereas, the unemployment of parents and heads of families, because of conditions for which they are in no way responsible, means that boys and girls, and young men and young women, have been denied the necessary training to properly and adequately equip them for a life's vocation;

And whereas, prolonged enforced inactivity has a debilitating and often disastrous effect upon the youth of our country;

And whereas, it is not enough merely to provide employment for youth who have suffered from the lack of training and preparation for vocational work;

And whereas, provincial schools which have reached a high standard of excellence and which yearly are increasing the sphere of their usefulness, do not provide adequate facilities for technical training;

Therefore be it Resolved,—That the Government consider the desirability of investigating the broad question of the re-establishment of the young men and young women of Canada;

And be it further Resolved,—That, in the conduct of such investigation, attention be given to the possibility of making available, to those of our youth, who are adapted for such training and who would otherwise be denied it, technical training in various branches;

And be it further Resolved,—That, in the conduct of such investigation, consideration should be given to the feasibility of setting up and maintaining a National Youth Re-establishment Commission.

After Debate thereon, the question being put on the said proposed motion, it was agreed to.

Mr. Dubois, seconded by Mr. Lacombe, moved,—Whereas the City of Three Rivers is the most important centre on the St. Lawrence River, between Quebec and Montreal;

And whereas, (a) the said city being an industrial centre largely inhabited by the labouring class is the natural outlet for agricultural products of the region; (b) the farmers of the south shore are interested in that important city being easily accessible to them, both for the selling of their products and the making of purchases; (c) the ferry boat service is not always regular, chiefly in winter season and sometimes in summer months by reason of the very large number of passengers; (d) practical means of communication at all hours of the day would benefit the working-class population of Three Rivers and the farmers of the south shore; (e) from a tourist standpoint the regional highway of St. Angele de Laval via Sherbrooke is the shortest route between Three Rivers and the United States; (f) the construction of a bridge between Three Rivers and St. Angele de Laval would greatly facilitate communications between La Tuque, Grand'Mere, Shawinigan, Cape de la Madeleine, Louiseville, etc., and important centres on the south shore, such as the cities of Nicolet, Victoriaville, Sherbrooke, St. Hyacinthe, etc.; (g) the construction of a bridge would encourage the development of a large number of counties as it would improve transportation facilities and the amount of labour made available in the region; (h) St. Angele de Laval is one of the terminals of the Canadian National Railways on the south shore between Montreal and Quebec;

Therefore be it Resolved,—That, in the opinion of this House, it is expedient that the Government should consider the advisability of appointing experts to look into this matter in all its aspects and report as speedily as possible.

After Debate thereon, the question being put on the said motion, it was agreed to.

Mr. Pouliot, seconded by Mr. Hurtubise, moved,—That, in the opinion of this House, Chapter 2 of 23-24 George V (1933) should be repealed;

That the Trade Agreement entered into between representatives of His Majesty's Government in Canada and of His Majesty's Government in the United Kingdom, copy of which is set forth in the Schedule of the above mentioned Act, should be revoked;

And that Chapter 13 of 20-21 George V (1930), An Act to amend the Customs Tariff, should be substituted thereto.

A Point of Order having been raised and taken under advisement by the Speaker, the question was not further considered.

On motion of Mr. Dunning the House then adjourned at 10.57 o'clock, p.m., until to-morrow, at 3 o'clock, p.m.

And the same was read as follows:—

PROVINCE OF MANITOBA
COURT OF APPEAL
WINNIPEG

MARCH 6, 1936.

To the Honourable,
The Speaker of the House of Commons,
Ottawa, Canada.

SIR,—In the matter of a Petition under the Dominion Controverted Elections Act complaining of the undue election or return of a member to serve in the House of Commons of Canada for the Electoral District of Souris in the Province of Manitoba, in respect of the election holden on the 14th day of October, 1935, we have the honour to forward herewith our Report certifying in writing the determination of the said Petition, to which is appended a copy of the notes of evidence taken upon the trial thereof; the time for appeal having elapsed and no appeal having been taken.

JAMES E. P. PRENDERGAST,
S. E. RICHARDS,
Trial Judges.

IN THE COURT OF APPEAL
PROVINCE OF MANITOBA
DOMINION CONTROVERTED ELECTIONS ACT
CAP. 50, R.S.C. 1927

In the matter of election of a member to serve in the House of Commons of Canada for the Electoral District of Souris, in the Province of Manitoba, holden on the 14th day of October, 1935.

REPORT OF TRIAL JUDGES

On a recount held under section 54 of The Dominion Elections Act, 1934, the County Court Judge, after rejecting 86 out of 10,675 ballots polled, declared that the candidates had received votes as follows:—

William Humbolt Clendenning.. . . .	631
George William Macdonald.. . . .	4,504
Alexander Henry Parks.. . . .	953
Errick French Willis.. . . .	4,501

and that George William Macdonald was duly elected by three votes.

The petitioner, claiming to be the duly elected member, does so on the grounds:—

- 1st. That five of the 86 rejected ballots, marked here as exhibits 1, 2, 3, 6 and 7 should be accepted as votes in his favour, and
- 2nd. That seven ballots allowed the respondent, marked here as exhibits 8 to 14, should be disallowed.

The respondent on his part claims:—

- 1st. That ten of the 86 ballots rejected, marked here as exhibits 20 to 29, should be accepted as votes in his favour, and
- 2nd. That five ballots allowed the petitioner, exhibits 15 to 19, should be rejected.

Dealing with the petitioner's contentions, and first with the five rejected ballots which he claims:—

As to exhibits 1, 2 and 3, these were cases where incapacitated voters applied for the deputy returning officer's assistance as they were allowed to do under section 46 (7).

After being sworn as to their incapacity, they declared they wanted their vote recorded for Willis, upon which the deputy returning officer in each case made a cross opposite the said candidate's name, but using his fountain pen.

It was urged for the respondent that the officer, when assisting a voter, must mark the ballot in the manner that section 46 (3) prescribes that the latter should do, which is to make a cross "with a black lead pencil."

The deputy returning officer, giving evidence, explained the occurrence by the fact that there were side by side on the table, a pencil for the voters and his own fountain pen which he used to initial each ballot, and that in those three cases, he inadvertently used his pen which he happened to have in hand when these voters stated what their choice was.

But for all that, these are irregularities. The respondent's contention is right that, although 46 (7) dealing with the officer's assistance does not repeat the direction in 46 (3) that the voter shall use a black lead pencil, still the election officer should mark the ballot in the manner that the voter is directed to do.

There is here, however, what we consider the dominant consideration, that these three incapacitated electors had the same right as any other elector to take part in the choice of their representative, that they did all the things which entitled them under the Act to have their votes recorded and that neither neglect, error or bad judgment can be imputed to them in any particular. If those voters had been incapacitated by blindness and had been assisted by friends of their choice as provided by section 46 (8), the case might possibly be different. But the poll officer here was not in any sense their agent and they had no control over him. With this consideration, it is sufficient, to hold these three ballots good, that they were shown in evidence not to have been marked by other voters (which would make them bad), but to be the identical ballots marked by the poll officer in the circumstances stated.

The further objection was taken in respect of these three ballots, that the oath was not taken as required by section 46 (7). We dismiss the objection on the ground, as stated in *Ellis and Town of Renfrew*, 23 O.L.R. p. 433, that the taking of the oath is not a statutory condition precedent to the right of an illiterate or incapacitated person to vote and that failure to do so is merely an irregularity in the mode of receiving the oath. This was followed in *Re Shumacher and Chesley*, 1910, 21 O.L.R. 537, and in other cases cited in *Robson and Hugg's most valuable Municipal Manual*.

We should here state that His Honour Judge Armstrong, in making the recount, had no other option than to disallow these three votes, as he had nothing else before him than the three ink-marked ballots and he was not allowed under the Act to take the evidence of which we have had the benefit and without which we could not have held those ballots good.

As to exhibits 6 and 7 also claimed by the appellant:—

Exhibit 6 bears a jumble of some thirteen ill-defined strokes forming two separate adjoining groups, and none of which cross each other. There is nothing whatever to suggest that there was an attempt to make a cross and the ballot is rejected as it was by the learned Judge.

Exhibit 7 has the figure "4" to the right of and close to the cross properly made opposite the appellant's name, which is the fourth on the ballot. The question is whether the "4" is a writing or mark by which the voter could be

identified under section 50 (2) c. In *Woodward v. Sarsons*, L.R. 16 C.P. 749, it was held that two or more crosses on a ballot paper did not invalidate the vote. It is recognized that the English Act is not as stringent as our own in many respects; but the *Sarsons* case was followed in this respect in the *Bothwell Election Case*, 8 C.S.C.R. at p. 718 and 719. See also the *West Calgary Election Case* (Alta.) 1922, 1 W.W.R. p. 1009, and in appeal in 64 S.C.R. at p. 245. This ballot is allowed the appellant.

Dealing now with the seven ballots which the appellant contends should not have been allowed the respondent:—

Exhibit 8. The mark consists of two very close downward strokes from left to right and two spaced downward strokes from right to left which cross the first two, giving the mark somewhat the appearance of an “H” inclined towards the right. There is undoubtedly a cross and it may in fact be said that there are two crosses. The question is thus the one having to do with identification. Following the *Muskoka Case*, 40 O.L.R. 254, the *South Oxford Case*, 32 O.L.R. p. 10 (foot) and the *West Calgary case* in the *Alberta Court* (supra) at p. 1010 (foot), we find there was no conscious attempt to leave a mark of identification, and maintain the learned Judge’s allowance of this ballot.

Exhibit 9. This ballot, like exhibit 6, bears a jumble of ill-defined lines out of which we cannot make out an attempt to make a cross, and is disallowed.

Exhibit 10. There was first made, it appears to us, a downward stroke slanting from right to left; then, to the left of it, a downward stroke slanting from left to right, which, if projected further, would cross the first line in the middle of it, but giving the impression of not quite reaching it, although a magnifying glass shows that a very much fainter projection of it, difficult at first to perceive, does reach the first-mentioned line. In *Jenkins v. Brecken*, 7 S.C.R. 252, the mark was the same as here, except that the left-hand stroke did clearly reach the other. On the other hand, in the *South Oxford case*, 32 O.L.R. p. 10, the Court disallowed a ballot with an upright “t” of which there was a distinct gap between the horizontal bar and the vertical. We are of opinion that, notwithstanding this last decision, the ballot in question should be allowed, even if the very faint connection between the two strokes were not to be taken into account. The natural way, followed by most in making a cross, is, as the voter did in this case, to first make a downward stroke slanting from right to left and then the second downward stroke. A fair attempt to make a cross can well then be inferred, whether the second line, as in the *Brecken case*, reaches the first line, or misses to do so by the merest gap as at first sight appears in this case. The same intention could not be inferred in the *South Oxford case*, where a horizontal line was first made and the vertical one was a downward stroke. This ballot must be held good.

Exhibit 11. The same observations apply here as for exhibit 8, except that this ballot which has a good cross, suggests even less suspicion that the doubling of one of the lines was made for purposes of identification. Its acceptance by the learned Judge should be confirmed.

Exhibit 12. Has a cross with a third stroke running through the center, as did exhibit 37 in the *South Oxford case*, 32 O.L.R. 13, where it was allowed. It will also be allowed.

Exhibit 13. Has a perfect cross opposite the respondent’s name, but objection is taken to the fact that there is also a pencil line drawn through the names of the three other candidates. Our opinion is, as stated by *Stuart, J.A.*, in the *West Calgary case* (supra) at p. 1007, that the voter was simply emphasizing his vote by striking out the names of the candidates he rejected and did not intend to thereby make any identifying mark. The ballot was properly allowed.

Exhibit 14. Marks made with indelible pencil are as a rule shiny and most indelible pencils are purple. A first glance at the cross here which is also somewhat shiny, may perhaps suggest that it is purple. But, under the magnifying glass, the mark is clearly and unmistakably made "with a black lead pencil" as the Act requires. The ballot was properly allowed.

Now, in regard to the Respondent's claims.

First, as to the ten ballots which he claims out of the 86 rejected:—

Exhibit 20. It bears a very heavy and short perpendicular mark. To the right are two approximately horizontal lines; a short one near the top and another a little longer, both joining the thick perpendicular one. To the left and quite close, are two faint marks. There is no cross, but does an attempt to make one reasonably appear? In our opinion it does not so appear because the very dominant stroke is the vertical one and we think the voter intended to make a figure 1. The County Court Judge was of the same opinion. The West Calgary Election judgments held the figure 1 to be an invalid marking and the ballot should be rejected.

Exhibit 21. There is here a cross to the right and another to the left of the petitioner's name. Is the cross to the left a mark by which the voter could be identified? In the West Calgary case before the Alberta Supreme Court (*supra*) at p. 1011 and 1012, Stuart, J.A., held in a similar case that there was no attempt at identification and that it was fairly obvious that the voter, after first making a cross before the name, realized that it was in the wrong place and then made one after the name. We take the same view and allow the ballot.

Exhibit 22. The mark here is "merely a tick", as it was on the ballot referred to in the West Calgary case (Alberta) p. 54 (foot). That it was a tick and that there was no attempt to make a cross, is further shown here by the fact that the two lines which meet in a kind of inverted V were made without lifting the pencil from the paper. We confirm the learned Judge's rejection of this ballot.

Exhibit 23. There is here a good cross to the right of the respondent's name and "2" to the right of the petitioner's name. Is the "2" a mark of identification? We do not think so. The transferrable vote is in use in rural Manitoba in the Provincial elections and the voter, evidently was confused as to the provisions of the Dominion and Provincial election Acts. He made a valid cross for the respondent and appears to have written the figure "2" in the compartment of the petitioner to indicate his second choice and not for the purpose of identification. The ballot should be accepted. We are unable to distinguish this ballot in regard to identification from exhibit No. 7, which we have allowed.

Exhibits 24 and 25. The cross to the right of the respondent's name on each ballot is perfect; but while they may not appear decidedly purple at a first glance, they are unmistakably so under the magnifying glass. Such ballots were held bad in the West Calgary case, by the Alberta Court (*supra*) at p. 1005, and by the Supreme Court (*supra*) at pp. 237 and 249. We hold the two ballots to have been properly rejected.

Exhibit 26. There is opposite the respondent's name a well-defined cross, and opposite Park's name, which immediately follows that of the respondent, a cross with an undulating line all over it, which at once suggests that the voter meant to delete it and then vote for the respondent. This was the view taken of similar ballots (Nos. 59 and 65) in the West Calgary case (Alberta) p. 1009. This one will be allowed the respondent.

Exhibit 27. This may be said to have been a cross standing as a St. Andrew's Cross, which has become something like a star by the addition of a perpendicular and a horizontal line passing through its centre. It may also be

described as two crosses—one imposed upon the other. Either cross would be a good marking. It is, unmistakably, an attempt to vote for the respondent and is, we think, not such a mark as would identify the voter. We would allow the ballot.

Exhibit 28. We have here a well-formed cross which is partly in the respondent's reserved space and partly on the almost half an inch thick horizontal black border or boundary separating that space from the next space underneath (Parks'). The part of the border occupied by the cross is the upper third, and the point of crossing is decidedly within the border but almost at the very top of it. Did the voter intend to make the cross on neutral ground and so abstain from voting? or did he mean to vote for the respondent who alone could claim the vote? and if so, should such intention prevail here or should we hold that section 46 (3) absolutely requires that an elector make a complete cross within the space containing the name of the candidate for which he intends to vote? We agree that the Act is not so rigid as to forbid giving effect to the voter's intention when it reasonably appears, and, observing that the two strokes are downward strokes and were thus unmistakably started on McDonald's space, we give weight to the consideration which seems to us well founded, that the voter's intention is more particularly indicated in a case of this kind, by the place in which he first applies the pencil to the paper and begins making each stroke. The second signatory to this Report, while concurring as stated, does not wish to do so without expressing some doubts as to whether the voter's intention can be given effect to, in view of the North Bruce case, unreported, but referred to with approval in the Lennox case, 4 O.L.R. 380. The decision there seems to have been that a ballot bearing a cross on the broad dark space or border over the first name, should be rejected. Unfortunately it is not clear in that case whether the cross was wholly or only partly within the black border. We would allow the respondent this ballot.

Exhibit 29. This mark is simply a tick or check mark in the shape and position of an upright V. There was no attempt to make a cross as the pencil evidently was not lifted in the process of making the two lines and the considerations that apply to exhibit 22 also apply here. The ballot was properly rejected.

Dealing now with the five ballots which the respondent says should not have been allowed the appellant:—

Exhibit 15. We have here a somewhat straight line slanting from the right to the left which is crossed by a waving and otherwise complicated line slanting from left to right, and the foot of the two lines are made to rest on a short more or less horizontal line ending with something like two dots. However waving and complicated one of the lines may be, it is a line and it crosses the other. It does not appear, for the reasons given hereinabove in regard to other ballots, that any of those peculiarities were intended to be marks of identification. As to there being a cross there, however unsatisfactory the waving and otherwise complicated line may be as part of a cross, its peculiarities may be due to feebleness, which seems to have been the view taken by the learned Judge and we would not disturb his approval of the ballot.

Exhibit 16. We have here a very good cross, but with something like a dot at each end of the two lines, and the point is whether those dots are marks by which the voter could be identified. A perusal of election cases shows that section 50 (2) c. has been very rarely applied, probably not in more than one case in twenty, and then, as appears to us, only where there were initials or some writing. In the West Calgary case (Alta.) supra, the learned Judge said at p. 1007:—

“I think it is exceedingly difficult to apply section 66 (2) c. (which was the same as our present said section) . . . In my opinion, the deputy returning

officer must simply do his best, take a reasonable view of the ballot and try and decide whether the voter has apparently been merely acting in haste, nervousness, ignorance or carelessness in making the marking in question without any intention of making an identifying mark. If he so decides, I think he should count the vote. If, on the other hand, he is able to conclude that a secret sign has purposely been made, he ought to reject it. The decision will, I admit, be often a very difficult one to make. For that reason, I think he ought to be very slow to discover an improper course, particularly when the possibility of actual evidence being taken is open upon petition under The Controverted Elections Act."

We further have here the possibility that the so-called dots may have been due to the difficulty of a feeble or inexperienced voter to start making a stroke and also to stop when it was sufficiently made, and we would not interfere with the learned Judge who allowed the petitioner this ballot.

Exhibits 17 and 18. Each of these two ballots has two good crosses side by side opposite the petitioner's name. In the Halton case, 4 O.L.R. 348, Osler, J. A., held good a ballot so marked with three crosses. In the Bothwell case (*supra*) the Supreme Court, following *Woodward v. Sarsons* (*supra*), held valid ballots marked as the one being considered here. We uphold the learned Judge's acceptance of these two ballots.

Exhibit 19. There is here, immediately opposite the petitioner's name, an irregular cross covered by many faint oval flourishes which at once give the impression of being an erasure, and next to it a well-formed cross. Following the *West Calgary* case (*Alta.*) pp. 1009 and 1011, we hold that the voter simply meant to replace a defective cross by a better one, and uphold the acceptance of the ballot.

To sum up, of the 4,501 ballots allowed the petitioner by the learned Judge, we have rejected none, and of the total of 86 ballots rejected by the learned Judge, we have allowed the petitioner four, being exhibits 1, 2, 3, and 7.

Of the 4,504 ballots allowed the respondent by the learned Judge, we have disallowed one, being exhibit 9, and of the total of 86 ballots rejected as afore-said, we have allowed the respondent five, being exhibits 21, 23, 26, 27, and 28.

Our determination of the trial is that the respondent was duly elected by a majority of three votes.

(In the Committee)

The following Resolution was adopted:—

Resolved,—That the fiscal treatment accorded to goods, the produce or manufacture of the United States of America, by the Trade Agreement between Canada and the United States of America, signed at Washington, November 15, 1935, be agreed to so that there may be introduced a Bill giving the said Trade Agreement the force of law in Canada:—

* * *

TRADE AGREEMENT BETWEEN CANADA AND THE UNITED STATES OF AMERICA

His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, in respect of the Dominion of Canada, and the President of the United States of America, being desirous of facilitating and extending the commercial relations existing between Canada and the United States of America by granting mutual and reciprocal concessions and advantages for the promotion of trade, have resolved to conclude a Trade Agreement as a step toward the lowering of the barriers impeding trade between their two countries, and for this purpose have through their respective Plenipotentiaries agreed upon the following Articles:—

ARTICLE I

Canada and the United States of America will grant each other unconditional and unrestricted most-favoured-nation treatment in all matters concerning customs duties and subsidiary charges of every kind and in the method of levying duties, and, further, in all matters concerning the rules, formalities and charges imposed in connection with the clearing of goods through the customs, and with respect to all laws or regulations effecting the sale or use of imported goods within the country.

Accordingly, natural or manufactured products having their origin in either of the countries shall in no case be subject, in regard to the matters referred to above, to any duties, taxes or charges other or higher, or to any rules or formalities other or more burdensome, than those to which the like products having their origin in any third country are or may hereafter be subject.

Similarly, natural or manufactured products exported from the territory of Canada or the United States of America and consigned to the territory of the other country shall in no case be subject with respect to exportation and in

regard to the above-mentioned matters, to any duties, taxes or charges other or higher, or to any rules or formalities other or more burdensome, than those to which the like products when consigned to the territory of any third country are or may hereafter be subject.

Any advantage, favour, privilege or immunity which has been or may hereafter be granted by Canada or the United States of America in regard to the above-mentioned matters, to a natural or manufactured product originating in any third country or consigned to the territory of any third country shall be accorded immediately and without compensation to the like product originating in or consigned to the territory of the United States of America or Canada, respectively, and irrespective of the nationality of the carrier.

ARTICLE II

Neither Canada nor the United States of America shall establish any prohibition or maintain any restriction on imports from the territory of the other country which is not applied to the importation of any like article originating in any third country. Any abolition of an import prohibition or restriction which may be granted even temporarily by either country in favour of an article of a third country shall be applied immediately and unconditionally to the like article originating in the territory of the other country. These provisions equally apply to exports.

In the event of quantitative restrictions being established by either Canada or the United States of America for the importation of any article it is agreed that in the allocation of the quantity of restricted goods which may be authorized for importation, the other country will be granted a share equivalent to the proportion of the trade which it enjoyed in a previous representative period prior to the establishment of such quantitative restrictions.

In all matters concerning the rules, formalities or charges imposed in connection with any form of quantitative restriction on the importation of any article, Canada and the United States of America agree to extend to each other every favour granted to a third country.

ARTICLE III

Articles the growth, produce or manufacture of the United States of America, enumerated and described in Schedule I annexed to this Agreement, shall, on their importation into Canada, be exempt from ordinary customs duties in excess of those set forth in the said Schedule. The said articles shall also be exempt from all other duties, taxes, fees, charges, or exactions, imposed on or in connection with importation, in excess of those imposed on the day of the signature of this Agreement or required to be imposed thereafter under laws of Canada in force on the day of the signature of this Agreement.

Schedule I and the notes included therein shall have full force and effect as integral parts of this Agreement.

ARTICLE IV

Articles the growth, produce or manufacture of Canada, enumerated and described in Schedule II annexed to this Agreement, shall, on their importation into the United States of America, be exempt from ordinary customs duties in excess of those set forth and provided for in the said Schedule. The said articles shall also be exempt from all other duties, taxes, fees, charges, or exactions, imposed on or in connection with importation, in excess of those imposed on the day of the signature of this Agreement or required to be imposed thereafter under laws of the United States of America in force on the day of the signature of this Agreement.

Schedule II and the notes included therein shall have full force and effect as integral parts of this Agreement.

ARTICLE V

The provisions of Articles III and IV of this Agreement shall not prevent the Government of either country from imposing on the importation of any product a charge equivalent to an internal tax imposed on a like domestic product or on a commodity from which the imported product has been manufactured or produced in whole or in part.

ARTICLE VI

Articles the growth, produce or manufacture of Canada or the United States of America shall, after importation into the other country, be exempt from all internal taxes, fees, charges or exactions other or higher than those payable on like articles of national origin or any other foreign origin.

The provisions of this Article in regard to granting of national treatment shall not affect the laws now in force in Canada whereby leaf tobacco, spirits, beer, malt and malt syrup imported from abroad are subject to special taxes, nor shall they affect the applicability to goods produced or manufactured in the United States of America of special excise taxes imposed under existing provisions of the Special War Revenue Act. In these respects, however, most-favoured-nation treatment shall apply.

ARTICLE VII

No prohibitions, import or customs quotas, import licenses, or any other form of quantitative regulation, whether or not operated in connection with any agency of centralized control, shall be imposed by Canada on the importation or sale of any article the growth, produce or manufacture of the United States of America enumerated and described in Schedule I, nor by the United States of America on the importation or sale of any article the growth, produce or manufacture of Canada enumerated and described in Schedule II, except as specifically provided for in the said Schedules.

The foregoing provision shall not apply to quantitative restrictions in whatever form imposed by either country on the importation or sale of any article the growth, produce or manufacture of the other country in conjunction with governmental measures operating to regulate or control the production, market supply, or prices of like domestic articles, or tending to increase the labour costs of production of such articles. Whenever the Government of either country proposes to establish or change any restriction authorized by this paragraph, it shall give notice thereof in writing to the other Government and shall afford such other Government an opportunity within thirty days after receipt of such notice to consult with it in respect of the proposed action; and if an agreement with respect thereto is not reached within thirty days following receipt of the aforesaid notice, the Government which proposes to take such action shall be free to do so at any time thereafter, and the other Government shall be free within fifteen days after such action is taken to terminate this Agreement in its entirety on thirty days' written notice.

ARTICLE VIII

In the event that Canada or the United States of America establishes or maintains a monopoly for the importation, production or sale of a particular commodity or grants exclusive privileges, formally or in effect, to one or more agencies to import, produce or sell a particular commodity, the Government of the country establishing or maintaining such monopoly, or granting such monopoly privileges, agrees that in respect of the foreign purchases of such monopoly or agency the commerce of the other country shall receive fair and equit-

able treatment. To this end it is agreed that in making its foreign purchases of any product such monopoly or agency will be influenced solely by those considerations, such as price, quality, marketability, and terms of sale, which would ordinarily be taken into account by a private commercial enterprise interested solely in purchasing such product on the most favourable terms.

ARTICLE IX

The tariff advantages and other benefits provided for in this Agreement are granted by Canada and the United States of America to each other subject to the condition that if the Government of either country shall establish or maintain, directly or indirectly, any form of control of foreign exchange, it shall administer such control so as to insure that the nationals and commerce of the other country will be granted a fair and equitable share in the allotment of exchange.

With respect to the exchange made available for commercial transactions, it is agreed that the Government of each country shall be guided in the administration of any form of control of foreign exchange by the principle that, as nearly as may be determined, the share of the total available exchange which is allotted to the other country shall not be less than the share employed in a previous representative period prior to the establishment of any exchange control for the settlement of commercial obligations to the nationals of such other country.

The Government of each country shall give sympathetic consideration to any representations which the other Government may make in respect of the application of the provisions of this Article.

ARTICLE X

In the event that a wide variation occurs in the rate of exchange between the currencies of Canada and the United States of America, the Government of either country, if it considers the variation so substantial as to prejudice the industries or commerce of the country, shall be free to propose negotiations for the modification of this Agreement; and if an agreement with respect thereto is not reached within thirty days following receipt of such proposal, the Government making such proposal shall be free to terminate this Agreement in its entirety on thirty days' written notice.

ARTICLE XI

In the event that the Government of either country adopts any measure which, even though it does not conflict with the terms of this Agreement, is considered by the Government of the other country to have the effect of nullifying or impairing any object of the Agreement, the Government which has adopted any such measure shall consider such representations and proposals as the other Government may make with a view to effecting a mutually satisfactory adjustment of the matter.

The Government of each country will accord sympathetic consideration to, and when requested will afford adequate opportunity for consultation regarding, such representations as the other Government may make with respect to the operation of customs regulations, quantitative restrictions or the administration thereof, the observance of customs formalities, and the application of sanitary laws and regulations for the protection of human, animal, or plant life.

In the event that the Government of either country makes representations to the Government of the other country in respect of the application of any sanitary law or regulation for the protection of human, animal, or plant life, and if there is disagreement with respect thereto, a committee of technical

experts on which each Government will be represented shall, on the request of either Government, be established to consider the matter and to submit recommendations to the two Governments.

ARTICLE XII

Nothing in this Agreement shall be construed to prevent the adoption of measures prohibiting or restricting the exportation or importation of gold or silver, or to prevent the adoption of such measures as either Government may see fit with respect to the control of the export or sale for export of arms, ammunition, or implements of war, and, in exceptional circumstances, all other military supplies.

Subject to the requirement that there shall be no arbitrary discrimination by either country against the other country in favour of any third country where similar conditions prevail, the provisions of this Agreement shall not extend to prohibitions or restrictions (1) imposed on moral or humanitarian grounds; (2) designed to protect human, animal or plant life; (3) relating to prison-made goods; (4) relating to the enforcement of police or revenue laws; (5) directed against mis-branding, adulteration, and other fraudulent practices, such as are provided for in the pure food and drug laws of either country; and (6) directed against unfair practices in import trade.

ARTICLE XIII

Except as otherwise provided in the second paragraph of this Article, the provisions of this Agreement relating to the treatment to be accorded by Canada and the United States of America, respectively, to the commerce of the other country, shall not apply to the Philippine Islands, the Virgin Islands, American Samoa, the Island of Guam or to the Panama Canal Zone.

The provisions of this Agreement regarding most-favoured-nation treatment shall apply to articles the growth, produce or manufacture of any territory under the sovereignty or authority of Canada or the United States of America, imported from or exported to any territory under the sovereignty or authority of the other country. It is understood, however, that the provisions of this paragraph do not apply to the Panama Canal Zone.

The advantages now accorded or which may hereafter be accorded by the United States of America, its territories and possessions and the Panama Canal Zone exclusively to one another or the Republic of Cuba shall be excepted from the operation of this Agreement. The provisions of this paragraph shall continue to apply in respect of any advantages now or hereafter accorded by the United States of America, its territories or possessions or the Panama Canal Zone to the Philippine Islands irrespective of any change in the political status of the Philippine Islands.

The advantages now accorded or which may hereafter be accorded by Canada exclusively to other territories under the sovereignty of His Majesty the King of Great Britain, Ireland, and the British dominions beyond the Seas, Emperor of India, or under His Majesty's suzerainty or protection, shall be excepted from the operation of this Agreement.

ARTICLE XIV

The Government of each country reserves the right to withdraw or to modify the concession granted on any article under this Agreement, or to impose quantitative restrictions on any such article if, as a result of the extension of such concession to third countries, such countries obtain the major benefit of such concession and in consequence thereof an unduly large increase in importations of such article takes place: Provided, That before

the Government of either country shall avail itself of the foregoing reservation, it shall give notice in writing to the other Government of its intention to do so, and shall afford such other Government an opportunity within thirty days after receipt of such notice to consult with it in respect of the proposed action and in respect of such compensatory modifications of the terms of the present Agreement as may be appropriate; and if an Agreement with respect thereto is not reached within thirty days following the receipt of the aforesaid notice, the Government which proposes to take such action shall be free to do so at any time thereafter, and the other Government shall be free within fifteen days after such action is taken to terminate this Agreement in its entirety on thirty days' written notice.

ARTICLE XV

The present Agreement shall be ratified by His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, in respect of the Dominion of Canada and shall be proclaimed by the President of the United States of America.

The provisions of Article I and of Articles III and IV, respectively, shall, subject to the reservations and exceptions elsewhere provided for in this Agreement, be applied by Canada and the United States of America, on and after January 1, 1936, pending ratification of the Agreement in respect of Canada as provided in the first paragraph of this Article.

The entire Agreement shall come into force on the day of the exchange of the proclamation and ratification at Ottawa. The Agreement shall remain in force until December 31, 1938, subject to the provisions of Article VII, Article X and Article XIV.

Unless at least six months before December 31, 1938, the Government of either country shall have given to the other Government notice of intention to terminate the Agreement on that date, the Agreement shall remain in force thereafter, subject to the provisions of Article VII, Article X and Article XIV, until six months from such time as the Government of either country shall have given notice to the other Government.

In witness whereof the respective Plenipotentiaries have signed this Agreement and have affixed their seals hereto.

Done in duplicate, at the City of Washington, this fifteenth day of November, 1935.

Mr. Rogers, a Member of the King's Privy Council, laid before the House,—Copy of Order in Council passed under the provisions of the Relief Act, 1934, as follows:—

Order in Council, P.C. 990, dated April 23, 1936: authorizing payment to the province of Manitoba of the sum of \$1,866.01 for relief settlement—settlers from districts with municipal organization; settlers from districts without municipal organization.

Introduction of Bills being called;

Mr. Speaker gave the following decision respecting the Bill intituled: "An Act to amend the Bank of Canada Act."—*Mr. Reid*.

"The objects of the Bill which the Honourable Member for New Westminster is seeking to introduce in amendment to the Bank of Canada Act are to allow the Bank of Canada to hold silver coin and bullion in conjunction with gold as a reserve against the note issue and deposit liabilities and also to authorize the issue of certificates against the silver held in the reserve.

"Under Section 31 of the Act, the Receiver-General of Canada is entitled to share in the profits of the Bank. If the reserve required as security against outstanding notes and deposit liabilities is to consist of silver bullion as well as gold, the fluctuations in the price of silver may cause the Bank to sustain serious losses and therefore its profits may be substantially curtailed with an accompanying reduction of the Receiver-General's share therein and therefore a diminution of the public revenue. It is an established principle in British Parliaments, which was set down by a Standing Order passed in the British House of Commons as far back as 1707, that financial business must originate in a Committee of the Whole House.

"Private Members cannot introduce a Bill of this character which ought to be preceded by a resolution on motion of a Minister with the recommendation of His Excellency the Governor General.

"Moreover, there is now on the Order Paper a Resolution in the name of the Minister of Finance antecedent to a Bill to amend the Bank of Canada Act so as to increase the capital stock of the Bank and to assure ownership of a majority of shares by the Government. Full discussion on this measure cannot be anticipated by a private member's Bill, and in determining whether a discussion is out of order on the ground of anticipation, the authors say that regard shall be had by the Speaker to the probability of the matter anticipated being brought before the House in a reasonable time. I am well aware that a motion for leave to bring a Bill is in order even if another similar motion with regard to a Bill dealing with the same subject-matter stands on the Order Paper, but when the latter is a Government measure announced in the Speech from the Throne and bound to be taken up by the House, I doubt if the discussion of some of its provisions can be forestalled by the introduction of a private member's Bill. For this reason and also because the Bill sought to be introduced deals with a part of the Dominion's finances, I rule it out of order."

The House resolved itself again into Committee of Supply.

(In the Committee)

The following Resolutions were adopted:—

XI—SUPERANNUATION

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, FRIDAY, 1ST MAY, 1936

PRAYERS.

One Petition was laid on the Table.

Mr. SPEAKER: "On Monday last, the Honourable Member for Témiscouata was asked by me, as Speaker of this House, to withdraw a statement he made concerning the Leader of the Opposition and which the Right Honourable Gentleman denied. The Honourable Member utterly refused to conform to my ruling and went as far as to defy the Chair by saying: 'If I am wrong, I will withdraw; if I am not wrong I will not withdraw. . . . I will see the book before withdrawing.' He walked out of the House while repeating this statement. In doing so, he offended not only against parliamentary practice but also against the proprieties of the House of Commons.

"It is my duty as Speaker to keep intact the rules debate and to safeguard the dignity of the Chair. I have waited a few days before taking action because I felt the Honourable Member for Témiscouata would realize the gravity of his conduct and take the first opportunity to make the withdrawal asked by the Chair.

"I note in the official debates that he was willing to withdraw his statement in Committee of the Whole yesterday but was prevented from doing so by the Chairman who rightly decided that the offence having been committed in the House retraction must be made when the Speaker is in the Chair.

"As a refusal to yield to the Speaker's authority is a serious matter which cannot be overlooked, I must insist on the Honourable Member for Témiscouata withdrawing the statement he made regarding the Right Honourable Leader of the Opposition, and I trust that in his desire to ensure the true observance of parliamentary practice, he will do so in good grace."

The Order being read for the House to resolve itself again into Committee of Ways and Means;

Mr. Dunning moved,—That Mr. Speaker do now leave the Chair.

And a Debate arising thereon, the said Debate was, on motion of Mr. Bennett, adjourned.

By leave of the House, Mr. Dunning, a Member of the King's Privy Council, laid before the House,—Reports and Proceedings and Appendices of the Tariff Board under Part I of the Tariff Board Act, 1933, upon twelve references made to it by the Minister of Finance, viz: Forged Steel Rolls; Artificial Silk Yarn; Artificial Silk Thrown Yarn; Buttons and Button Moulds; Rice for Rice Krispies; Rhinestones, Metal Spots, Beads and Button Moulds; Cotton Yarns; Cotton Fabrics and Artificial Silk Fabrics; Crude Petroleum and its Derivatives; Photographic Appliances and Equipment; The Automotive Industry; Paper-board Containers; Furniture.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, MONDAY, 11TH MAY, 1936

PRAYERS.

Two petitions were laid on the Table.

Mr. Mackenzie (Vancouver Centre), a Member of the King's Privy Council, laid before the House,—Copies of Naval General Orders promulgated to the Canadian Naval Forces on May 1, 1936, under the provisions of Section 44, Chapter 139, R.S.C. 1927.

And also,—Copies of General Orders promulgated to the Militia and Royal Canadian Air Force dated May 1, 1936, under the provisions of Section 141, Chapter 132, and Section 4 (4), Chapter 3, R.S.C. 1927.

The House resumed the adjourned Debate on the proposed motion of Mr. Dunning: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Ways and Means, and the proposed motion of Mr. MacInnis in amendment thereto: That all the words after " That " be struck out and the following substituted therefor:—

" this House regrets that the proposals submitted by the Minister of Finance on May 1st are entirely inadequate to meet the serious and acute situation prevailing in Canada and would appear to be based upon the assumption that poverty and debt are inevitable conditions within the country.

" Whilst the reduction of the tariff on certain commodities is to be welcomed, this House deplores the increase in the Sales Tax which falls so heavily on those least able to bear it, thus further reducing the already inadequate purchasing power of the masses.

" This House also regrets that the Government has taken no steps to lessen the inequalities of income by increased taxation on the larger incomes and by a levy on large accumulations of capital for the reduction of national debt."

And the Debate continuing;

Mr. Hansell, seconded by Mr. Poole, moved:—

That all the words in the proposed amendment following the word “ country ” be struck out, and the following substituted therefor:—

“ This House also regrets that no steps have been taken to provide

“(1) That every increase in the real wealth of the nation will be accompanied by an increase in the possible effective demand for the goods its citizens require;

“(2) That the distribution to individuals of claims to goods and services must be progressively less and less dependent on employment;

“(3) That the regulation of the issue and recall of money must automatically be adjusted to the requirements of the economic system. Financial policy must be made to serve industrial and national requirements, and thus remove all hindrances to the efficient production and distribution of goods and services so that all the people of this country may be enabled to enjoy the benefits to which their productive capacity entitles them.”

And the Debate still continuing;

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

(2) The Legislature of any province may charge the principal, interest or sinking fund of the guaranteed securities on any revenue of the province, upon terms that such revenue shall, if the Government of Canada so requires, be disbursed exclusively in payment of such principal, interest or sinking fund and may, if the Government of Canada so requires, provide for the depositing of all funds from the revenue so charged in a trust account in a bank or banks for the purpose of implementing the said charge.

No. 70

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 26TH MAY, 1936

PRAYERS.

Mr. Beaubien, from the Special Committee appointed to inquire into the operations of the Canadian Radio Commission and its administration of the Canadian Radio Broadcasting Act of 1932 and amendments, and the regulations made under authority thereof, presented the unanimous Third and Final Report of the said Committee, which is as follows:—

Your Committee held twenty-five meetings and heard thirty-seven witnesses, including three Members of Parliament, and after careful consideration of the evidence presented not only before this Committee, but also before the 1932 and 1934 Committees, we desire to endorse the conclusion reached in 1934, viz, that,—

It has been made evident to your Committee that the establishing of national broadcasting in Canada presents many difficulties, for the correction of which time, experience and large expenditures of public money will be necessary.

1. It has been amply demonstrated that a Commission of three cannot be moulded into a unit that can formulate and execute policies successfully. Evidence adduced before this Committee has made it apparent that under the existing organization there has been lack of coordination in dealing with some major questions.

1 (a). After carefully reviewing the administration of radio broadcasting we have reached the conclusion that recommendation Number One of the 1934 Committee, viz:—

That in the opinion of your Committee radio broadcasting could best be conducted by a General Manager,

is justified in all respects, and your Committee hereby endorses and repeats this recommendation.

2. We recommend that the Canadian Radio Broadcasting Act of 1932 be repealed and that a new Act be substituted therefor, which will place the direction of broadcasting in the hands of a corporation with an honorary board of nine governors chosen to give representation to all parts of Canada, this board to operate through a general manager and an assistant general manager, who will be responsible to the board for the conduct of all business of the corporation.

Members of the honorary Board of Governors should be men of broad outlook, having a knowledge of the tastes and interests of the listening public and who can make a definite contribution to the solution of the problem before the corporation.

The General Manager should be appointed by the Governor in Council, upon the recommendation of the Board of Governors, and should be an executive of the widest experience in the field of radio broadcasting.

3. We recommend that the Corporation be given substantially the powers now enjoyed by the British Broadcasting Corporation (see Appendix attached), and, in addition, that it be given exclusive control over:—

- (i) the character of all programs, political and otherwise, broadcast by private stations, and the advertising content thereof;
- (ii) all wire line networks used for carrying broadcast programs.

4. Your Committee is of the opinion that the Corporation should enjoy the fullest possible freedom, in so far as its internal activities are concerned, including full authority to engage, dismiss and control its employees and fix their remuneration.

5. Your Committee endorses the recommendation of the Aird Commission in regard to the technical control of stations and reaffirm the views of that Commission as set out in Page 11 of their report, viz:—

Control

The Minister of Marine and Fisheries under the Radiotelegraph Act is the licensing authority for all classes of radio stations, which includes radio broadcasting stations and receiving sets. Direct control over such technical questions as wavelengths, power of stations and the collection of license fees should, we consider, remain with this authority. In order to promote good reception conditions, it is most desirable that the radio activities of other departments of the Government should conform to the regulations and be subject to the authority of the Radiotelegraph Act. We are also of the opinion that the Radio Branch of the Marine Department should continue to carry on the service to broadcast listeners, which includes the suppression of inductive interference.

Certain of the technical duties now carried out by the Department in regard to the radiotelegraph and radiotelephone stations in the Dominion appear to be duplicated by the Commission in the case of broadcasting stations and the preponderance of evidence presented before your Committee was strongly in favour of the handling of all this work by the Department.

6. We regard it as a fundamental requirement that complete co-operation be established and maintained at all times between the Minister and the Corporation, and that the Minister before taking any action towards the authorizing of any new private stations, changing the power of such stations, assigning wavelengths and other co-related questions, shall first consult with and obtain the recommendations of the Corporation to the end that if and when it is decided to extend the national system, the location and organization of private stations will be such as to permit of the efficient absorption of any or all of them into the national system.

7. We reaffirm the principle of complete nationalization of radio broadcasting in Canada. Pending the accomplishment of this, radio listeners will continue to be dependent on private stations for much of their entertainment, and your Committee is of the opinion that the fullest co-operation should be maintained between the Corporation and the private stations.

8. We desire to reaffirm the principle set out in the Canadian Radio Broadcasting Act of 1932 that in determining the compensation to be paid for the taking over of any private stations, no allowance shall be made for the value of the licence terminated by the taking over of such station, and that no person shall be deemed to have any proprietary right in any channel allotted, and that no person shall be entitled to any compensation by reason of the cancellation of the allotment of a channel or change in a channel.

9. Your Committee recommends that the Corporation immediately consider ways and means of extending national coverage, either by linking additional existing private stations to the Corporation's network or by the establishment of new stations.

10. In order to provide for the establishment of new stations from time to time to give further coverage, it is recommended that the Corporation be authorized to borrow from the Government sums not exceeding a total of \$500,000 under such terms and conditions as may be prescribed by the Governor in Council.

The interest and amortization charges on such loans as may be granted shall be a first charge on the revenues of the Corporation.

11. Your Committee recommends that power be given to the Minister of Marine to control the use of electrical apparatus, machinery, or any devices which cause local interference with radio reception.

12. Your Committee finds that during the last elections there was serious abuse of broadcasting for political purposes and that lack of a proper control by the Commission was apparent. The most glaring instance brought before the Committee relates to the "Mr. Sage" broadcasts, in which offensive personal references were frequent and to which no proper or adequate political sponsorship was given. Some of these offensive broadcasts originated in the Toronto studios of the Radio Commission.

We also find that credit was issued to political parties in direct violation of the rules of the Commission, which rules prescribe that all political broadcasts must be paid for in advance. Generally speaking from the evidence presented before your Committee we are forced to the conclusion that there was a loose administration of Commission affairs.

Your Committee recommends that the following points be incorporated in the new legislation:—

- (i) That dramatized political broadcasts be prohibited.
- (ii) That full sponsorship of all political broadcasts be required.
- (iii) That the limitation and distribution of time for political broadcasts be under the complete control of the Corporation, whose duty it shall be to assign time on an equitable basis between all parties and rival candidates.
- (iv) That no political broadcasts be allowed on an election day or during two days immediately preceding same.

13. Your Committee recommends that, as soon as it becomes possible, to review, readjust or amend the contracts for wire line networks, consideration be given to the inclusion in such networks of the telephone line systems, particularly those owned by provincial Governments of the Prairie Provinces.

14. Your Committee recommends that, in the matter of news broadcasts, the closest possible co-operation should maintain between the Broadcasting Corporation and the Canadian Press.

15. Your Committee recommends that legislation be introduced in Parliament at this session to give effect to these recommendations.

A copy of the Minutes of Proceedings and Minutes of Evidence adduced before your Committee, together with Exhibits and papers relative thereto, are herewith submitted with the Report, for the information of the House.

(For Minutes of Proceedings and Minutes of Evidence adduced before the Committee, together with Exhibits and papers relative thereto see Appendix to the Journals No. 2.)

By Mr. Maybank:—Order of the House for a copy of the Report of Price Waterhouse and Company, Union Trust Building, Winnipeg, Manitoba, dated January 25, 1936, being an audit and a special review of the accounts of Canadian Co-operative Wheat Producers Limited in respect of their operations dealing with the crop of 1930 pools, including the stabilizing operations from September 1, 1930, to October 31, 1935.

The Bill No. 68, An Act respecting the Carriage of Goods by Water, was read the third time and passed.

The House went into Committee of the Whole to consider the following proposed Resolution:—

That it is expedient to bring in a measure to amend the Bank of Canada Act so as to increase the capital stock of the Bank, to provide that certain shares thereof shall be purchased by the Minister of Finance out of the Consolidated

Revenue Fund in order to assure ownership of a majority of the shares by the Government, to increase the number of directors, and to provide for election and appointment of directors in such manner as to assure voting control of the Board by directors appointed by the Government.

And the House continuing in Committee;

Objection being taken in Committee to the decision of the Chairman (Mr. Sanderson) on a point of Order, and an appeal being made to the House;

The Speaker resumed the Chair, and the Chairman of the Committee made the following Report:—

“In Committee of the Whole on the proposed Resolution of Mr. Dunning to amend the Bank of Canada Act, Mr. Woodsworth moved the following amendment:—

“That the words after the word ‘Act’ ending with the word ‘Bank’ in line two of the resolution, be deleted.

“That the word ‘certain’ in line three, be deleted and the word ‘all’ substituted therefor.

“That the words ‘a majority of’ in line 4, be deleted.

“That the words ‘to increase the number of directors’ in line 5, be deleted.

“That the words ‘election and’ in line 6, be deleted and the words ‘by directors appointed’ in line 7, be deleted—So that the amended resolution would read: ‘That it is expedient to bring in a measure to amend the Bank of Canada Act to provide that all shares thereof shall be purchased by the Minister of Finance out of the Consolidated Revenue Fund in order to assure ownership of the shares by the government, and to provide for appointment of directors in such manner as to assure control of the board by the government.’

“After debate thereon, the Chairman ruled the said proposed amendment out of order for the following reasons:—

“This is not a motion for appropriation of public moneys. It is a proposed resolution under Standing Order 60 for a charge upon the people to be voted on another occasion and it is required in order that the Bank of Canada Act, a Bill involving an expenditure, be introduced.

“The fundamental terms of the resolution submitted to the House with the Governor General’s recommendation upon which this Committee was appointed cannot be amended. Amendments will only be in order if they fall within the terms of the resolution.

“May, 13th edition, page 546, says that the procedure in Committees on money resolutions follows in principle the procedure of the Committee of Supply and that amendments are out of order if they are proposed with a view to substituting an alternative scheme to that proposed with the royal recommendation.

“The point was decided by Mr. Whitley, then Chairman of Committees in the British House of Commons on the 22nd October, 1917.

“I therefore ruled the amendment out of order.

“Whereupon Mr. Woodsworth appealed from the ruling of the Chairman.”

The question being put by Mr. Speaker: Shall the ruling of the Chairman be confirmed; it was decided in the affirmative, on the following division:—

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 3RD JUNE, 1936

PRAYERS.

Sir Eugène Fiset, from the Standing Committee on Railways and Shipping owned, operated and controlled by the Government, presented the Third and Final Report of the said Committee, which is as follows:—

Your Committee, appointed under Order of Reference dated April 6, 1936, to consider the accounts and estimates of the Canadian National Railways and the Canadian Government Merchant Marine, held nine sittings in the course of which the following witnesses were examined:—

Hon. C. P. Fullerton, Chairman, Board of Trustees, Canadian National Railways;
Mr. J. E. Labelle, K.C., Trustee, Canadian National Railways;
Mr. F. K. Morrow, Trustee, Canadian National Railways;
Mr. S. J. Hungerford, President, Canadian National Railways;
Mr. R. C. Vaughan, Vice-President, Purchasing and Stores Department, Canadian National Railways;
Mr. S. W. Fairweather, Director, Bureau of Economics, Canadian National Railways;
Mr. T. H. Cooper, Auditor of General Accounts, Canadian National Railways;
Mr. B. J. Roberts, Assistant Deputy Minister of Finance.

Your Committee had under consideration Item No. 286 of the Supplementary Estimates for the fiscal year ending March 31st, 1935, net income deficit of the Canadian National Railways, \$47,421,464.80; also the following Items of the Special Supplementary Estimates for the fiscal year ending March 31st, 1937, viz: No. 426—\$39,900,000 to be applied by the Canadian National Railway Company in payment of net income deficits arising in the calendar year 1936; No. 427—\$1,109,400 to provide for loans and investments; No. 428—\$5,303,000 to provide for commitments incurred under authority of Section 9, Supplementary Public Works Construction Act, 1935.

These different items were approved and reported on April 30, 1936. In addition, the Committee reported two Items of \$2,500,000 and \$7,459,000 respectively, from the Canadian National Railways Budget for the calendar year 1936, representing capital expenditure and debt retirements to be provided by way of loan to the Canadian National Railway Company and covered by a Resolution standing on the Order Paper of the House in the name of the Minister of Finance.

Your Committee has also approved of the following estimates for the fiscal year ending March 31st, 1937:—

Items Nos. 84 and 85: *Re Maritime Freight Rates Act*—\$800,000 and \$1,740,000, respectively;

Item No. 86: Deficit of Canadian National (West Indies) Steamships, Limited—\$370,000.

With respect to the anticipated deficit item of \$39,900,000 for the calendar year 1936, it will be noted that the policy of making provision for this amount in the Estimates is substituted for the practice of enacting legislation giving the Minister of Finance the authority to advance the moneys from time to time as required. Your Committee favours this new departure, the effect of which is to place the item before parliament in specific estimates in the same manner as applies in other Government projects.

Consideration by your Committee of the financial status of the Canadian National Railway System was effected by examining the Trustees and Officials above mentioned, on the following detailed statements:—

1. Annual Report of the Canadian National Railway System for 1935;
2. Annual Reports of the Canadian Government Merchant Marine, Ltd., and the Canadian National (West Indies) Steamships, Ltd., for 1935;
3. Summary of 1935 estimated financial requirements compared with actual requirements;
4. Analysis of 1935 operations;
5. Budget for the year 1936;
6. Auditors' Report on the accounts of the Canadian National Railway System for the year ended December 31, 1935;
7. Memorandum on Depreciation accounting;
8. Special problem of equipment retirements resulting from the depression and highway competition.

Examination of the Canadian National Railways Budget for the calendar year 1936, reveals that the Operating Revenues are estimated at \$190,000,000 and the Operating Expenses at \$172,500,000. Sundry items charged against Operating Revenues including interest on long term debt due to the public, amount to \$61,300,000, showing an estimated deficit on the year's operations of \$43,800,000. In this amount, however, are incorporated the following items not required in cash, viz: Depreciation Reserve, \$450,000; Amortization of Discount on Funded Debt, \$1,027,000; Loss on retirement of equipment, \$2,423,000; in all, \$3,900,000, reducing the anticipated net cash requirement on deficit account to \$39,900,000.

With respect to the Canadian Merchant Marine, your Committee has been informed that the transfer of its fleet to other interests has practically been concluded. It is estimated that the continued operation of this service by the Railways would have necessitated a further outlay of approximately \$6,000,000. Your Committee has the assurance that with the new arrangement to be entered into for the operation of the Australian service, Canadian interests will be fully safeguarded.

In view of the disposal of this marine service, it has been found necessary in the consideration of the Annual Report and Budget of the Canadian National Steamships, to amend an item of \$199,450, provided as total requirement, by substituting therefor, an amount of \$399,450, thus eliminating the operating income of the Canadian Government Merchant Marine which had been estimated at \$200,000.

In the course of its deliberations your Committee has discussed the question of recapitalization and the advisability of writing down the Capital Structure of the Canadian National Railways.

Examination of the Board of Trustees elicited the fact that the matter had been the subject of further study during the year and also the opinion that the question involves a matter of Government policy rather than a direct responsibility of the Board of Trustees.

Your Committee is satisfied that certain adjustments could be made which would be reflected in the balance sheet. In view, however, of the Minister of Railways' statement that the question was under advisement and that the Committee could expect to have the question referred to them under concrete proposals at the next session of Parliament, your Committee refrains, at this time, from making any recommendation.

A copy of the proceedings and evidence of the Committee is annexed hereto.

(For Minutes of Proceedings and Evidence see Appendix to the Journals No. 3.)

Representatives of the Department of Pensions and National Health, the Canadian Pension Commission, the Pension Appeal Court, the Veterans' Bureau, the War Veterans' Allowance Committee and Mr. G. D. Finlayson, Superintendent of Insurance, were in attendance.

The information given to your Committee by the representatives of the veteran organizations and of the branches of the Government Service was found to be invaluable and afforded the greatest assistance to your Committee in arriving at certain definite conclusions with reference to the matters and problems which had been referred for its consideration.

It is not necessary to set forth in detail the many suggestions which were submitted, nor to state the reasons why some of these, after full consideration, did not meet with the approval of your Committee. Decision was reached in regard to these matters only after full discussion and careful deliberation. There were three distinct branches of inquiry represented by the three Bills which were referred to your Committee, Nos. 26, 27 and 28, covering amendments to the Pension Act, amendments to the War Veterans' Allowance Act and the formation of a Commission to assist towards the employment of former members of the forces. For the convenience of Parliament, the Bills, as amended, have been reprinted.

Bill 26—Amendments to the Pension Act

The draft Bill submitted to your Committee has been revised in many respects, to conform with the conclusions arrived at and the recommendations consequent thereupon which your Committee has deemed it advisable to make.

The proposal that the Pension Appeal Court should be merged with the Canadian Pension Commission, was not approved, it being considered that the former body should continue as a separate entity. The Bill as now submitted proposes certain limitations and confers certain new benefits. It simplifies the procedure in connection with the presentation of applications for pension and makes provision for a more thorough preparation of claims. The following are the principal features of the amended Bill, as recommended by your Committee.

1. The definition of "improper conduct" is changed, to differentiate between acts of commission and acts of omission, so that a member of the forces whose wounds were merely the result of negligence will not be precluded from receiving pension.

2. Additional *ad hoc* Commissioners are provided for, so that the Canadian Pension Commission may be able to deal more rapidly with applications before it.

3. In order to ensure uniformity of direction in connection with administration, the staff of the Commission and that of the Department are amalgamated, subject to the provision that the Chairman of the Commission shall have control over the duties to be performed by the staff assigned to him.

4. The jurisdiction of the Commission in connection with the award, increase, decrease, suspension or cancellation of pension is made more definite.

5. Representations were made to your Committee that where a pension had been awarded in error and there had been no fraud or misrepresentation on the part of the applicant, if such pension had been paid for a number of years, the award should not be disturbed. An amendment to this effect is included.

6. Provision is made for a quorum of the Commission to hear cases, when necessary, outside of Canada.

7. The personnel of the Pension Appeal Court is increased to four, by adding a duly qualified physician or surgeon of ten years' standing. It is now provided that on an appeal by the Crown to the Court, against a decision of a quorum of the Commission favourable to an applicant, the decision of the Court must be unanimous in favour of the Crown or the appeal will stand dismissed. Provision is also made for the seconding of members of the Commission to serve on the Pension Appeal Court.

8. In view of the fact that it is now nearly eighteen years since the armistice and fifteen years since the official declaration of Peace, it is recommended that a time limit for applications for disability pensions be set; such time limit, for those who did not serve in a theatre of actual war, to be the 1st July, 1936, and for those who did so serve, the 1st January, 1940, provided that with regard to the latter, the Commission be empowered, in its discretion, to grant leave to have an application entertained after that date.

9. By the amending Act of 1932-33, it was provided that no additional pension should be awarded or payable in respect of a child born on or after the 1st May, 1933, or a daughter or other person employed as a housekeeper, if the duties were assumed on or after that date, or a wife, when marriage took place on or after that date. Amendments are now introduced slightly modifying these prohibitions, whereby additional pension can be paid in respect of a daughter or other person employed as a housekeeper who assumes the care of the minor children either of a disability pensioner or of a widow, so long as additional pension is payable in respect of such children, and whereby in the event of a pensioner marrying his housekeeper or other person who assumes the care of the children, or changes his housekeeper after the date mentioned, the additional pension may be continued.

10. Under the amendments of 1930, a pension could no longer be commuted and provision was made for restoration of those already commuted. Nearly all of those restorations having taken place, the sections which were rendered inoperative by the Act of 1930 are now repealed and one section is substituted therefor. Under it, retroactivation is limited to six months.

11. The limitation of the time during which a retroactive pension should be payable was a matter on which various opinions were expressed. It was, however, felt that there should be a reasonable limit and, therefore, discretionary powers are granted to the Commission, under which pension may be payable for a period prior to its award not exceeding twelve to eighteen months, except in certain cases in which a slightly longer period may be covered.

12. The suggestion that, when a blind pensioner in receipt of attendance allowance enters hospital, such allowance should not be discontinued, was approved, and provision for its continuation is made.

13. The section of the Act under which a widow's pension can be awarded should her husband, who was a pensioner, in receipt of eighty per cent to one hundred per cent for a period not exceeding ten years, die from a non-pensionable disability, has been amended by removing the time limit of ten years. This is now similar to the provision respecting a pensioner's children, which was amended in 1928, by removing the time limit.

14. The procedure respecting application for pension has been rewritten. Under it, the applicant will be able to present his claim twice only to the Commission. Before the second submission, he will be furnished with a summary of all available evidence by the Veterans' Bureau. All disabilities in respect of which he desires to claim pension must be before the Commission at the second hearing. This will ensure full consideration by the Commission before the case goes to a quorum. Time limits have been imposed, during which notice must be given or action taken by the applicant, but discretionary powers have been vested in the Commission to extend these time limits where proper cause for the non-completion of the case is shown.

Bill No. 27—Amendments to the War Veterans' Allowance Act

The draft Bill submitted to your Committee has been revised in several respects to conform with the recommendations which your Committee has deemed it advisable to make. The following are the principal features of the amended Bill as recommended by your Committee:—

1. It is provided that the administrative body shall be named the War Veterans' Allowance Board instead of the War Veterans' Allowance Committee, and the necessary provisions are made for the composition of the Board and the continuance as members of the Board of the present members of the Committee.

2. The powers of the Board have been more clearly defined.

3. The most important amendment recommended by your Committee is that which is contained in Section 3 of the Bill. Most of the discussion on this Bill was devoted to this amendment. The Act at present makes provision, subject to certain qualifications, for two classes of veterans,—(a) Those who have attained the age of 60 years, and (b) those who not having attained the age of 60 years are permanently unemployable by reason of physical or mental disability.

Your Committee's attention has been drawn to the border line cases between these two classes: veterans who are not quite 60 and have insufficient disability from a medical standpoint to classify them as "permanently unemployable". This class was referred to by the Hyndman Committee, and the War Veterans' Allowance Committee has also been impressed with its existence.

Your Committee, after careful consideration, decided that it would be unwise to lower the age of entitlement generally for all veterans. General satisfaction with regard to this Act and its administration during the six years of its operation was expressed by the representatives of the various organizations that appeared before your Committee, and your Committee is reluctant to recommend any far-reaching change in the existing legislation that would tend to change its character. Your Committee, however, did decide to recommend that provision should be made for the border line cases above referred to, confining their recommendation in this respect to veterans between the ages of 55 and 60 who served in the theatre of actual war.

On this section of the proposed Bill there was a division of opinion as to the extent to which the amendment should go but, for the sake of unanimity, the amendment as contained in Section 3 of the Bill was approved, without prejudice to the right of members of the Committee not wholly satisfied with the amendment to express their views without being limited by reason of the qualified approval given thereto.

Your Committee is also of the opinion that in view of the general purpose of the War Veterans' Allowance Act decisions under the terms "permanently unemployable by reason of physical or mental disability" contained in Section 4 of the Act should not be based exclusively upon medical opinion but that these terms should receive a broad interpretation.

Your Committee also recommends that the Veterans' Assistance Commission to be appointed under the provisions of Bill No. 28 make an investigation into the position of those veterans under the age of 55 years who are by reason of disability, pre-aging and general unfitness, incapable of maintaining themselves.

4. Exemptions in calculating the income of a recipient of a War Veterans' Allowance have been extended to include helplessness or attendants' allowance granted under the provisions of the Pension Act, as well as the clothing allowance which was previously exempted.

5. The Bill gives the Board discretion, subject to certain limitations, to pay a part of the allowance to the dependents of any recipient who is undergoing imprisonment as well as full discretion to pay a part of the allowance to the dependents of any recipient who is maintained at the expense of the Department as an inmate of any institution.

Bill No. 28—An Act to Assist Towards the Employment of Former Members of the Forces

Throughout the course of the inquiry, the intensity of unemployment among veterans was stressed by the various witnesses who saw in the implementation of the legislation proposed by Bill 28, a means whereby the opportunities of employment of able, as well as partially disabled, men might be considerably increased.

At the outset it was apparent that, up to date, accurate statistics regarding the number of unemployed veterans in Canada were not available. Your Committee, therefore, felt that the first charge to be imposed on the Veterans' Assistance Commission should be a direction to obtain such information and, having done so, to classify such persons into groups according to their abilities to engage in different forms of work. Your Committee was also of the opinion that such a survey should not be confined to former members of the Canadian forces in the Great War.

Accordingly, your Committee recommends that the definition of veteran in Bill 28 be amended to include a veteran of "any other of His Majesty's Forces or of any of the Forces of His Majesty's Allies during the Great War" and that the first duty of the Commission under Section 6 of the Bill be to "carry out as soon as possible an investigation to ascertain the extent of unemployment among veterans in Canada and classify those who are unemployed according to physical and mental capacity or incapacity to undertake gainful employment in restricted and unrestricted occupations and in any other categories which, after the investigation, the Commission may consider applicable." Having received from all sides repeated assurances of co-operation of the veterans' bodies and other persons to assist in securing necessary information and of implementing any projects decided upon, your Committee recommends that provision be made in Section 7 of the Bill for the appointment of honorary local committees composed of persons resident in any locality.

As representations were made that the existing facilities for the care and maintenance of unemployed veterans were inadequate in some localities, your Committee would further recommend that the Commission, while conducting this survey into the extent of unemployment, should investigate the facilities available throughout Canada for the care and maintenance of veterans and should make such suggestions and recommendations as may be deemed advisable.

To ensure that the progress of the Commission's activities, both in connection with its surveys and application of approved projects, be made known to the Government, your Committee would also recommend that the Commission be required to submit from time to time interim reports on matters arising out of the Act.

General

Strong representations were made that ex-members of the Imperial Forces now residing in Canada should be granted all the benefits accorded under Canadian legislation to those who served in the Canadian Forces; also that Imperial pensioners, particularly pre-war residents of Canada, should be eligible for Class 2 treatment, that is treatment for non-pensionable disabilities, under the Department, similarly to Canadian pensioners. It was suggested that these matters be discussed by the Chairman with the British Ministry of Pensions and an effort made to get the Imperial authorities to assume the cost.

Your Committee was asked to recommend that the question of reparations to prisoners of war be reopened. This being a matter which it was considered did not come within the scope of the powers of your Committee, it was decided to refer it to the Government for consideration.

A proposal was made that the Pension Act should be amended so that those who are suffering from mental, psychopathic or neuropathic disabilities, although such are considered to be of a congenital nature, might be pensionable to the full extent of such disabilities if there had been service in the theatre of actual war and aggravation of such disabilities had been shown. It was decided to recommend that the Minister of Pensions and National Health should convene a Board of psychiatrists and neurologists to discuss the incidence of these conditions and the treatment necessary therefor.

A printed copy of the evidence taken before your Committee is submitted herewith.

(For Minutes of Proceedings and Evidence see Appendix to the Journals No. 4.)

At six o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 6, until to-morrow, at three o'clock, p.m.

Speaker.

Mr. Weir, from the Standing Committee on Agriculture and Colonization, presented the Third Report of the said Committee, which is as follows:—

By an Order of Reference, dated March 13th, your Committee was authorized to print from day to day 500 copies in English and 200 copies in French of the minutes of proceedings and evidence, together with papers, documents and records to be incorporated with such evidence.

On account of the demand for copies, your Committee requests permission to print an additional 500 copies in English and 100 copies in French, of all minutes of proceedings and evidence, together with papers, documents and records to be incorporated with such evidence, and that Standing Order 64 be suspended in relation thereto.

Mr. Bothwell, from the Special Committee on Elections and Franchise Acts, presented the Fourth and Final Report of the said Committee, which is as follows:—

Your Committee and the Subcommittee appointed by it have held 24 meetings for the purpose of studying the matters referred under the orders of Reference of February 21 and March 5, 1936.

Your Committee was informed that it was not the intention of the Government to make general revisions of either the Franchise Act, 1934, or the Election Act, 1934, at this Session of Parliament, and as no annual revision of Voters' Lists was being made this year, it deemed it necessary as a first duty to prepare draft bills by way of amendment to both Acts making provision for the holding of By-Elections on reasonably accurate lists of Electors. This was accordingly done and the draft bills referred to were submitted to Parliament with the third report of the Committee.

Owing to the wide scope of the references and the necessity of arriving at a decision on the advisability of adopting Proportional Representation and the alternative vote in single member constituencies, or either of them, before proceeding with the other matters of reference, these were the next matters dealt with.

Your Committee, in the course of their sittings for the study of these subjects heard and examined four witnesses as follows:—

Mr. Ronald Hooper, of Winnipeg, Manitoba.

Mr. W. C. Good, of Paris, Ontario.

Mr. C. P. Wright, of Wolfville, Nova Scotia.

Mr. Harry Butcher.

The case for Proportional Representation was fully and ably presented by Messrs. Hooper, Good and Wright and your Committee gave every consideration to their representations and suggestions but found that even in the minds of these outstanding proponents of the system there was a doubt as to its adaptability to the whole of the Dominion of Canada.

Your Committee were greatly impressed by the obvious sincerity of Messrs. Hooper, Good and Wright in their advocacy of the Proportional Representation System and their desire to see at least a start made in putting it into effect, but were not convinced that it would be wise for Parliament to adopt that system. It should, perhaps, be stated that these gentlemen recommended only the Hare system, which is one of the five most commonly used systems of Proportional Representation, of which more than three hundred have already been invented.

Your Committee feel indebted to Mr. Harry Butcher for the exhaustive and unbiased inquiry he has made into both the Proportional Representation System and the Alternative Vote in single-member constituencies and would especially refer to his concluding analysis in the minutes of the proceedings and evidence of May 12, 1936, in which he summed up the result of his study and investigation, which analysis is hereto attached as an appendix to this report.

Your Committee have given the most careful consideration to the views presented by Messrs. Hooper, Good and Wright, as well as to the analysis presented by Mr. Butcher, and, as a result, recommend that unless, and until, conclusive evidence can be adduced showing that the adoption of either or both of the systems in Canada would be conducive to good government, neither Proportional Representation nor the Alternative Vote in single-member constituencies should be adopted by the Parliament of Canada.

The Order of Reference respecting methods of effecting redistribution could not effectively be considered until Proportional Representation and the Alternative Vote were disposed of, and at this late date in the Session your Committee feels that it cannot give this important subject the study that is due it, and therefore recommends the reappointment of the Committee in the next Session of Parliament to complete the work on this reference.

Several meetings were devoted to the study of compulsory registration of voters and compulsory voting as well as to a consideration of suggested amendments to the Franchise and Election Acts, 1934, but your Committee believes that further investigation is necessary before reporting to Parliament thereon, and accordingly recommends that these subjects be again referred to the Committee at the next Session.

During the course of its deliberations your Committee heard four witnesses from British Columbia asking that the franchise be extended to Canadian citizens of Japanese origin; the brief filed by them is attached hereto and opens up a subject of wide and far-reaching importance on which much further evidence will have to be obtained before your Committee could make any findings with respect to the request made.

It is the unanimous opinion of your Committee that the study and assistance rendered by Mr. Butcher, Counsel to the Committee, Mr. Castonguay, the Chief Electoral Officer, and Colonel Thompson, the Franchise Commissioner, have been of invaluable service and recommends that they be requested to further study and analyse all suggestions made for the amendment of both the Franchise Act, 1934 and the Election Act, 1934, between now and the next Session with the object in view of being prepared at that time to give concrete and specific information on the value of each and every suggestion.

Your Committee further recommends that the evidence taken, together with an index be printed as an appendix to the Journals of the House. A copy of the minutes of proceedings and evidence taken by the Committee is attached hereto.

(For Minutes of Proceedings and Evidence see Appendix to the Journals No. 5.)

Mr. Euler, from the Special Committee on the Marketing of Wheat and other Grains, presented the unanimous Second and Final Report of the said Committee, which is as follows:—

Pursuant to the Resolution of the House of Commons of March 18, 1936, your Committee held ten sessions and heard and examined under oath three witnesses, namely,—

Mr. A. E. Darby, Secretary, Winnipeg Grain Exchange.

Mr. F. O. Fowler, Manager, Winnipeg Grain and Produce Exchange Clearing Association.

Mr. J. R. Murray, Chief Commissioner, The Canadian Wheat Board, Winnipeg, Man.

Mr. Darby described the constitution and membership of the Winnipeg Grain Exchange and the handling of grain from the producer to the exporter.

Mr. Fowler stated the functions, rules and regulations of the Winnipeg Grain and Produce Exchange Clearing Association.

Mr. Murray, Chief Commissioner of the Canadian Wheat Board, explained fully the operations of the Board since its appointment on December 3, 1935. He was examined closely and at length on the operations of the Wheat Board since the latter took office in December until the end of January, 1936, with particular reference to the following,—

- (a) To what extent, if any, the Board had favoured exporters of grain and Canadian millers in the sales policy it had adopted.
- (b) To what extent, if any, speculative interests alleged to be short in the Winnipeg market had been permitted to cover their transactions in the large sales made in the month of December, 1935, immediately following the higher price fixed by the Argentine government for Argentine wheat.

After a full examination of Mr. Murray and the records placed by him at the disposal of the Committee, we are of the opinion that the course taken by the Board in the marketing of wheat was consistent with the intention of Parliament in enacting the Wheat Board Act of 1935, and with the policy of the Government to reduce the wheat surplus to reasonable proportions.

While there was a short interest in the Winnipeg wheat market in December of 1935, no evidence was produced that would warrant the conclusion that speculative short interests were protected by the Board in that month. As the Committee finds it impracticable to obtain conclusive evidence on this point, we recommend that this matter be referred for further investigation to the Royal Commission, the appointment of which is recommended in this report.

The Committee further gave general consideration to the whole problem of the production and marketing of Canadian wheat and other facts pertaining to the wheat problem. Because of the gravity of this problem, and because your Committee has neither the time nor the facilities to make a comprehensive survey of the situation, we recommend the appointment by the Government of a Royal Commission to make a complete survey of the production, grading and distribution of Canadian grain, including the methods of marketing by,—

- (a) the producers themselves through co-operative and stabilizing effort;
- (b) the agency of a Government Wheat Board and the powers such a board should possess;
- (c) the open market or competitive method;

and, further, to inquire into the general effect of mixing, if any, and of selection for protein content by millers and exporters.

This would involve, not only a full examination into the methods referred to above, but also into the conditions which obtain in world markets; what effect, if any, these methods have had upon European purchasers, and, generally, what measures should be taken to retain and enlarge markets for Canadian wheat, and products of wheat and other grains, throughout the world.

A printed copy of the proceedings and evidence taken, together with the exhibits filed, accompanies this report.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, MONDAY, 15th JUNE, 1936

PRAYERS.

Mr. Speaker informed the House,—That the Clerk had laid on the Table the Thirteenth Report of the Examiner of Petitions for Private Bills, which was read as follows:—

Pursuant to Standing Order 99, Section 2, the Examiner of Petitions for Private Bills has the honour to present the following as his Thirteenth Report:—

Your Examiner has duly examined the following Petitions for Private Bills, severally praying for the passing of an Act to grant a divorce, and to dissolve the marriage of the Petitioner, and finds that the requirements of the 95th Standing Order have been complied with in each case, viz:—

Of Edith Astroff Nevitt, of the City of Montreal, wife of Joseph Nevitt.

Of Edythe Mary Ross Brown, of the City of Montreal, wife of Hallowell Macdonald Brown.

Of Adjutor St. Jean, of the City of Montreal, husband of Blanche Paquin St. Jean.

Of Joseph Paul George Marcoux, of the City of Montreal, husband of May Enid Aileen Evans Marcoux.

Mr. McIntosh, from the Standing Committee on Industrial and International Relations, presented the Third Report of the said Committee, which is as follows:—

Your Committee has had under consideration a resolution referred to it by the House on February 27, 1936, (viz:) that the question of the employment of Canadian citizens on ships and vessels, the owners or charterers of which receive moneys from the Public Treasury of Canada, be referred to the Standing Committee on Industrial and International Relations.

Your Committee held numerous sittings and heard the following witnesses on the subject matter of the resolution:—

Mr. F. E. Bawden, Director of Steamship Subsidies to Department of Trade and Commerce, Ottawa.

Mr. F. H. Clendenning, President of the Empire Shipping Board, Vancouver, B.C., representing the Vancouver Merchants' Exchange, the Vancouver Board of Trade and the Vancouver Chamber of Shipping; also the British Columbia Division of the Canadian Manufacturers' Association.

Mr. Charles Patrick O'Donovan, President of Canadian Amalgamated Association of Seamen, Vancouver, B.C.

Mr. Walter Johnson, President of the Nova Scotia Seamen's Union, Halifax, N.S.

Mr. E. P. Flintoft, K.C., General Counsel for the Canadian Pacific Railway Company.

Capt. Edmund Aikman, R.N.R., General Superintendent Pacific Service, Canadian Pacific Railway Company.

Submissions were also received from the following interests:—

The Shipping Federation of Canada.

The Vancouver Merchants' Exchange.

The Canadian Manufacturers' Association.

The Congress of Canadian Organizations.

The Consul General of China (through Department of External Affairs).

The Executive Board of Seafarers' Industrial Union, Vancouver, B.C.

Your Committee also obtained information from the following shipping interests:—

The Silver Java Line.

The Union Steamship Line.

Canadian National (West Indies) Steamships, Limited.

The information received from these was with regard to the wages paid by them and the difference in the cost of feeding Oriental and other crews. Further information was obtained from the Shipping Master of the Port of Vancouver relative to deep-seamen available at that Port for service.

After consideration of the evidence presented to it, your Committee finds as follows:—

Re: Ships on the Atlantic Coast

The evidence concerning the employment of Canadian Seamen on Ships, receiving moneys paid from the Treasury of Canada, discloses:—

1. In a statement submitted by the Canadian National Steamships (West Indies) Limited, it was shown that, while no Orientals were employed, and all, with one exception, were British subjects, it is only right that it should be pointed out in this connection that, out of 793 men employed as shown on the list, 365 were not Canadian citizens. This means that 46 per cent of those employed were other than Canadians. It is also pointed out in the same statement that, while 428 British Whites are domiciled in Canada, the others are not, which means a big loss financially to Canada.

2. That the statement, as presented by the Canadian National Steamships, discloses an exceptionally large number of employees who, while British subjects, are not considered Canadian citizens as coming within the meaning as considered under the terms of the resolution before the Committee.

3. That a large number of natives from the West Indies are employed in the Steward's and Firemen's Departments on the Canadian National Steamships (West Indies) Limited, boats.

4. That the contention expressed by the President of the Nova Scotia Seamen's Union, that a greater number of Canadians should be employed, is reasonable and well set out in the brief submitted.

5. Nothing submitted would lead the Committee to believe that the employment of Canadian citizens would in any way lessen the efficiency of the service.

6. It is pointed out that, not only could the service be as economically performed, but that, by the employment of a greater number of Canadians, it would be of direct financial benefit to Canada in as much as the moneys paid in wages would be expended in Canada.

RECOMMENDATION:

In view of the above and other reasons presented, it is respectfully recommended that, in so far as the Atlantic Coast is concerned, the Canadian National Steamships Limited be advised that it is not suggested nor desirable to change the general set-up of the Officers and Engineers in so far as Canadians are concerned, but that this Company be requested to employ a greater number of Canadian citizens, particularly as applying to positions in connection with the Steward's and Firemen's Departments, and your Committee recommends that at least 50 per cent of those employed in these two departments be Canadian citizens, domiciled in Canada.

Re: Ships on the Pacific Coast

Evidence presented to your Committee, inquiring into the alleged undue employment of Oriental and non-Canadian labour on board ships subsidized by the Government of Canada, reveals the following conditions:—

On the Canadian West Coast, shipping roughly divides itself into three types:—

1. Coast-wise.
2. Shipping to the Antipodes.
3. Trade with the Orient.

1. As regards coast-wise shipping, the work is done by Canadians mainly, and there is no issue.

2. Shipping to Australia and the Antipodes is carried on by the Canadian/Australian Line. This Company, which receives an annual subsidy of \$300,000 from the Canadian Government, employs but eight Canadians in the crews of 510 men.

3. Oriental Shipping: the third type is chiefly carried on by the Empress Boats of the Canadian Pacific Railway trans-Pacific service. These ships receive a substantial subsidy from the Government. The total number of men employed to man them is 2,033, of whom 265 are White British, engaged as Officers and Engineers. The remaining 1,768 are Chinese, comprising 277 deck-hands, 558 in the engine room, and 933 victuallers. It is claimed by the Company that, as much of their passenger trade, namely 67 per cent, through and local, is Oriental, this type of labour is not only cheaper, but infinitely more satisfactory, than white labour, since the latter could not be gotten to cater to Oriental passengers on the one hand, or mix with Oriental labour on the other. It is moreover claimed by the Company that the service is now supplied at a serious yearly loss, and that the extra cost involved in the substitution of Canadians for Orientals would make the service practically impossible of operation.

YOUR COMMITTEE THEREFORE RECOMMEND:

1. That, in view of the substantial subsidy granted yearly to the Canadian-Australian Line by Canada, the small number of Canadians employed in its service be brought to the attention of the Company, and that they be requested to afford Canadian Seamen a reasonable degree of employment at the earliest possible convenience.

2. That, as up to the year 1913 the decks of the Empress Boats were manned by white seamen, and in as much as the deck service is an important and

responsible branch of the work of these boats, the Canadian Pacific Railway Company be requested to replace the Orientals now so employed by Canadian seamen, and that this change be made at the Company's earliest opportunity.

No. 87

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 18TH JUNE, 1936

PRAYERS.

Mr. Weir, from the Standing Committee on Agriculture and Colonization, presented the Fourth Report of the said Committee, which is as follows:—

Your Committee has had under consideration a resolution referred to it by the House on March 2nd, 1936, viz:—

That an immediate Inquiry be made by the Standing Committee on Agriculture and Colonization into the causes underlying the high prices of agricultural implements, with particular reference to the advance in prices in the year 1936.

Your Committee has secured information by way of questionnaire and by oral examination chiefly from three main sources:—

1. Departmental Officials.
2. Provincial Departments of Agriculture.
3. Implement Companies.

Under the powers conferred upon it your Committee has appointed Counsel, Auditors and assistants necessary for the conduct of the Inquiry.

The Committee has held twenty-two sessions at which oral and documentary evidence was submitted to it by departmental officials, provincial government representatives and executives of implement companies.

Due to the wide scope of the Inquiry and the voluminous character of the evidence presented to the Committee and having regard to the limited time at your Committee's disposal, it has not been possible to complete the Inquiry as contemplated in the Order of Reference and to report thereon before prorogation.

Your Committee is of the opinion that sufficient evidence has been adduced or suggested to the Committee to amply justify the continuance and completion of the Inquiry.

Your Committee therefor recommends:—

1. That the Inquiry be continued at the next session of Parliament by a Special Committee of the House.

2. That such Special Committee be appointed as early as possible after the commencement of the next session of Parliament.

3. That during the coming recess of Parliament the government take into consideration the necessity of continuing such investigation as may be deemed advisable for such continued Inquiry.

4. That the records, exhibits and evidence filed with or taken by your Committee be placed in the custody of the Minister of Agriculture and that such records, exhibits and evidence be made available to such Special Committee upon its appointment.

(For Minutes of Proceedings and Evidence see Appendix to the Journals No. 8.)

The Order being read for consideration of amendments made by the Senate to Bill No. 17, An Act respecting the National Harbours Board;

On motion of Mr. Howe, it was ordered,—That a Message be sent to the Senate to acquaint their Honours that this House agrees to their fourth amendment and disagrees with their first, second, third and fifth amendments to Bill No. 17, An Act respecting the National Harbours Board, for the following reasons:—

1. Amendment No. 1 makes impossible re-employment of many officers and employees of present harbour boards who have long years of service, and in addition would seriously handicap the Board in the conduct of its many competitive business operations.
2. Amendment 2 arises out of Amendment 1, and is not otherwise required.
3. Amendment 3 imposes restrictions that serve no useful purpose, and which are not presently imposed on other government services.
4. Amendment 5 is permissive only, and confers on the Board no new authority. The Government holds the view that the step specified by this clause is not desirable at this moment.

After Debate thereon, the question being put on the said motion; it was agreed to.

The Order being read for consideration of amendments made by the Senate to the Bill No. 67, An Act to amend the Customs Act (Canadian Waters);

Mr. Ilsley moved,—That a Message be sent to the Senate to inform their Honours that this House agrees to their amendments to the Bill No. 67, An Act to amend the Customs Act (Canadian Waters), but with an amendment to their tenth amendment as follows:—

That Clause A be amended by substituting for the words “one thousand dollars” in the substituted section 257 the following words “not more than one thousand and not less than fifty dollars”.

After Debate thereon, the question being put on the said motion; it was agreed to.

The Order being read for consideration of amendments made by the Senate to the Bill No. 75, An Act to amend the Income War Tax Act;

Mr. Ilsley moved,—That a Message be sent to the Senate to acquaint their Honours that this House agrees to their fifth, sixth, tenth, eleventh, twelfth, thirteenth and fourteenth amendments to Bill No. 75, An Act to amend the Income War Tax Act, and disagrees to their first, second, third, fourth, seventh, eighth and ninth amendments for the following reasons:—

Because, respecting the first amendment, paragraphs C and D of the First Schedule of the Act are “enacted” by section two of Chapter forty of the

Statutes of 1935, not re-enacted. To "re-enact" is to enact again in the same terms. These paragraphs were enacted by the Act of 1935 in terms different from that of the repealed paragraphs.

Because, respecting the second amendment, the First Schedule of the Act is repealed in precise words by the Act of 1932-33, and a new Schedule "enacted". The Schedule is, therefore, not "amended".

Because, respecting the third, fourth, eighth and ninth amendments, the reasons for disagreeing to the second amendment apply equally to these amendments, and further, because these changes would have the effect of substituting a new and incorrect method of drafting the enacting words in a clause of a Bill, a method contrary to that which has constantly been followed up to the present time, and would further have the effect of disrupting the uniformity of our statutes.

Because, respecting the seventh amendment, the word "and" would be substituted for the word "or", which is already in the Act, and the effect would be contrary to the desired intention of the section, which is that a company shall be liable for the tax "if it should fail to file the annual return or to pay the said filing fee", that is, the company shall be liable in either case.

And further, That this House, with respect to the fifteenth amendment made by the Senate agree to their amendment with an amendment to their amendment as follows:—

For the words "of said subsection (8)" substitute the words "of this subsection", for the reason that the words "of said subsection (8)" would be part of subsection (8) itself. As the words are incorporated in the subsection, it is preferable to use the words "of this subsection".

After Debate thereon, the question being put on the said motion; it was agreed to.

The Bill No. 103, An Act respecting Broadcasting, was read the second time, considered in Committee of the Whole, reported with amendments, considered as amended, read the third time and passed.

The Bill No. 55, An Act to amend The Copyright Amendment Act, 1931, was considered in Committee of the Whole, and progress having been made and reported, the Committee obtained leave to consider it again this day.

By unanimous consent, on motion of Mr. Mackenzie King, it was resolved, —That the present session of the House continue until midnight this day, and that Standing Order 7 be suspended in relation thereto.

A Message was received from the Senate informing this House that the Senate had passed the Bill No. 21, An Act to amend The Canadian National-Canadian Pacific Act, 1933, with amendments, which are as follows:—

1. Page 1, line 8. For "1933" substitute "1932-33".
2. Page 2, line 20. For the words "any of the" substitute the words "any company or other element of".
3. Page 2, line 25. For the words "any of the" substitute the words "any company or other element of".
4. Page 2, line 41. After the words "company or" insert the word "other".
5. Page 3, line 1. After the word "such" insert the words "if he be other than the President,".

6. Page 3, line 4. After the word "Council." add the words "and saving and excepting that and as aforesaid, he shall not be entitled upon any ground to any recompense or emolument from any company or other element of which National Railways is composed."

7. Page 7, line 10. After the words "by a" insert the word "joint".

8. Page 7, line 10. After the word "the" insert the words "Senate and".

The Bill No. 55, An Act to amend The Copyright Amendment Act, 1931, was again considered in Committee of the Whole, and progress having been made and reported, the Committee obtained leave to consider it again at the next sitting of the House.

A Message was received from the Senate informing this House that the Senate had passed the Bill No. 97, An Act to amend the Combines Investigation Act, with an amendment, which is as follows:—

1. Page 1, lines 4 to 17, inclusive.—Leave out clause one.

And it being after eleven o'clock, p.m., Mr. Speaker adjourned the House without question, pursuant to Standing Order 7, it being then twelve minutes past midnight, until this day, at eleven o'clock, a.m.

After which His Honour the Deputy Governor General was pleased to close the First Session of the Eighteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

In relieving you of your duties, I congratulate you upon the care and attention given the many far-reaching measures submitted for your consideration. Your labours have been arduous and exacting; they have, however, served to complete, almost in its entirety, the extensive program outlined in my speech at the Opening of Parliament.

The Trade Agreement concluded on Armistice Day, 1935, between Canada and the United States of America, received your early approval, and its provisions have now been in force for some time. Legislation has been passed implementing the undertakings of the Agreement and of the settlement of the trade dispute with Japan. Substantial reductions have been made in the rates of duty on implements of production in the agricultural industry, and on machinery in other basic industries, as well as on articles of domestic consumption. The pronounced increase of our trade during recent months is evidence of the beneficial effects of the Government’s fiscal policies. My Ministers are continuing their efforts to expand trade with other countries.

Comprehensive measures have been enacted to effect a nation-wide co-operative effort to overcome conditions created by the long-continued existence of unprecedented unemployment, and to effect a more complete supervision of the expenditure of funds for purposes of relief. The National Employment Commission has been appointed, and has entered upon its duties. Appropriations have been made for projects to provide work, and to assist the provinces in the granting of direct relief. The Government has been authorized to enter into agreements to expand industrial employment. Special provision has been made to supply work for single homeless men in relief camps, and the camps will be closed on July the first.

Provision has been made for aiding in the reestablishment of needy fishermen and for expanding the sale of Canadian fisheries products at home and in foreign markets.

The Bank of Canada Act has been revised so as to give to the Government effective control of the Central Bank as well as a predominant interest in its ownership.

Existing legislation respecting the Canadian National Railways has been amended so as to provide for the appointment of a Board of Directors in a manner which will serve to afford a greater measure of government authority and responsibility to Parliament.

Radio broadcasting in Canada has been made the subject of inquiry by a Special Committee of the House of Commons. The Committee's recommendations have been embodied in legislation which provides for the carrying on of a national broadcasting service in Canada under a broadcasting corporation having complete control over all forms of broadcasting, whether public or private.

Provision has been made for the reorganization and consolidation of important departments and branches of the public service. The consolidation of certain existing departments into the Department of Mines and Resources and the Department of Transport, and the co-ordination of the administration of the national harbours, will greatly further the ends of efficiency and economy.

The Royal Commission appointed to inquire into conditions in the textile industry is continuing its investigation, and a Royal Commission has been appointed to conduct an investigation respecting the importation and distribution of anthracite coal.

The War Veterans Allowance Act has been amended to provide for special consideration to veterans having attained the age of fifty-five. A Veterans Assistance Commission Act has been passed with a view to securing more general employment of returned soldiers. Amendments have been made to the Pensions Act to simplify procedure and expedite the hearing of claims.

Amendments to the Criminal Code have been made, including the repeal of Section 98, relating to unlawful associations.

Other important measures have been enacted.

The several opinions of the judges of the Supreme Court of Canada touching the validity, in whole or in part, of a number of measures enacted at the sessions of Parliament in 1934 and 1935, have been received within the past few days, and are being carefully studied by my Ministers and by the law officers of the Crown.

My Ministers have given continuous thought to the serious international situation. They have sought to support by all appropriate and practicable means the establishment of a world order based on justice and equity. At the forthcoming meetings of the Assembly of the League of Nations to be held at Geneva at the end of the present month, and in September, the representatives of Canada will seek, in co-operation with other delegates, to further in the most effective way the aims and ideals of the League.

His Majesty the King has graciously consented to unveil, on July the twenty-sixth, the memorial on Vimy Ridge, erected in commemoration of the valour and sacrifice of the Canadian soldiers who fought during the Great War. The acceptance by the King of the invitation of His Majesty's Canadian Ministers, and by the President of the French Republic of the Canadian Government's invitation to be present on this occasion has been deeply appreciated.

Members of the House of Commons:

I thank you for the provision which you have made for the public service.

Honourable Members of the Senate:

Members of the House of Commons:

The many important measures enacted at the present session, the first of the eighteenth Parliament of Canada, constitute, I believe, a substantial contribution towards national recovery.

In taking leave of you at this time, I pray that the blessing of Divine Providence may rest upon your labours.

His Honour the Speaker of the Senate then said:

Honourable Members of the Senate:

Members of the House of Commons:

It is the Honourable the Deputy of His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Monday, the 3rd day of August next, to be here holden, and this Parliament is accordingly prorogued until Monday, the 3rd day of August next.

PIERRE F. CASGRAIN,

Speaker.
